FADE IN:

EXT. EARTH - SPACE - NIGHT

Silence.

The sun flares violently.

A coronal mass ejection blooms outward.

Cut to—

Earth's magnetosphere rippling under invisible pressure.

A faint harmonic tremor hums beneath the silence.

EXT. GIZA PLATEAU - NIGHT

Wind crosses endless sand.

Cairo flickers in the distance.

The Great Pyramid stands immovable.

Camera pushes slowly toward its apex.

Deep beneath—

A pulse.

Low. Ancient. Waiting.

TITLE: THE PHARAOH

INT. DR. LEILA HASSAN'S OFFICE - CAMBRIDGE - DAY

Stacks of papers. Archaeological models.

On her desk:

An OLD GOLD RING.

Heavy. Ancient design. A faint geometric engraving resembling Orion's Belt.

Leila (late 30s, precise, controlled) stares at it.

She turns it over in her fingers.

A memory intrudes—

FLASHBACK - INT. CAIRO APARTMENT - NIGHT (15 YEARS EARLIER)

Young Leila (18) stands in doorway.

Her FATHER (60s), feverish brilliance, spreads diagrams across a table.

FATHER
Legacy isn't what they write about
you.

It's what survives because of you.

He presses the ring into her hand.

FATHER (CONT'D)
This belonged to my father. And his
before him.

Leila studies the strange engraving.

LEILA (YOUNGER)
It's not pharaonic.

FATHER
No.

Beat.

FATHER (CONT'D)
It's older.

BACK TO PRESENT

Leila slips the ring onto her finger.

Her office phone vibrates.

Unknown international number.

She answers.

LEILA
Yes.

INTERCUT:

INT. EGYPTIAN MINISTRY - DAY

COLONEL RAMI.

RAMI
Dr. Hassan. We've discovered a
chamber within the Great Pyramid.

Leila freezes slightly.

RAMI (CONT'D)
And it's active.

Silence.

LEILA
Define active.

RAMI
It's emitting a measurable
frequency.

Leila glances at the ring on her hand.

A faint vibration hums beneath the call's static.

Almost imperceptible.

INT. CAMBRIDGE LECTURE HALL - LATER

Slide of the Great Pyramid projected large.

LEILA
The pyramids were built by human
beings.

A student raises a hand.

STUDENT
Then how do you explain the
precision of the internal voids?

Leila clicks to next slide too quickly.

Architectural stress diagrams.

LEILA
Advanced understanding of load
distribution.

Another student.

STUDENT 2
What about the unexplained chamber
discovered last year?

Leila hesitates.
For half a beat—
She hears something.
A faint low HUM.
Only she reacts.

LEILA
Every structure has anomalies.

Her hand unconsciously grips the ring.

EXT. GIZA PLATEAU - DAY

Blinding sun.
Leila steps out of a vehicle.
The Pyramid towers above.
She looks smaller than before.
RAMI approaches.

RAMI
Welcome home.

LEILA
I never stopped being from here.

They walk toward the secured entrance.

INT. FIELD LAB - DAY

Monitors glow with 3D scans.
DR. SAMIR NASSAR pulls up a holographic model.
A void above the King's Chamber.

SAMIR
Muon imaging revealed this cavity.

He toggles another screen.

A waveform appears.

Low. Steady. Cyclical.

SAMIR (CONT'D)
It activates during solar flare
events.

Leila stares.

The waveform matches the faint vibration she heard earlier.

Her hand tightens around the ring.

SAMIR (CONT'D)
Stone doesn't resonate like this.

Leila steps closer.

LEILA
Not stone.

RAMI
Then what?

Leila doesn't answer.

The HUM deepens faintly.

Almost like breath.

INT. GREAT PYRAMID - DESCENDING PASSAGE - DAY

Leila climbs through narrow ancient stone.

The HUM grows subtly stronger.

She pauses.

Places her palm against the limestone.

The vibration travels through her.

Her vision flickers-

VISION - ANCIENT NIGHT

Khufu stands alone in unfinished chamber.

Storm outside.

He presses his palm against smooth dark material.

His eyes are not afraid.

They are burdened.

KHUFU
(whisper)
For them.

BACK TO PRESENT

Leila jerks her hand back.

Breathing uneven.

SAMIR (O.S.)
Are you alright?

She steadies herself.

LEILA
Just heat.

But her eyes betray something else.

Recognition.

The HUM continues.

Waiting.

CUT TO BLACK.

INT. GREAT PYRAMID - KING'S CHAMBER - DAY

Massive granite blocks. Stillness.

Equipment hums softly against ancient silence.

A newly drilled aperture pierces the upper wall.

SAMIR adjusts a micro-drone.

SAMIR
We breach once. Clean insertion. No
structural stress.

RAMI watches closely.

Leila stands beneath the void.

Her hand rests unconsciously over the ring.

The HUM is stronger here.

Not loud.

Close.

INT. FIELD LAB - CONTINUOUS

Drone feed activates.

Blackness.

Then—

A smooth black surface fills the monitor.

Perfect hexagonal pattern.

Not carved.

Engineered.

SAMIR
Resolution increase.

Image sharpens.

The surface appears almost liquid yet rigid.

LEILA
That isn't limestone.

SAMIR
No.

He overlays frequency data.

SAMIR (CONT'D)
The signal is originating from it.

The waveform spikes slightly.

Leila steps closer to the screen.

The HUM in the chamber deepens.

Her ring vibrates faintly against her skin.

She notices.

Barely.

INT. KING'S CHAMBER - CONTINUOUS

Leila looks up toward the ceiling.

LEILA
How long has it been active?

SAMIR (O.S.)
Every flare cycle in the last three
months.

LEILA
Before that?

SAMIR
No data.

Leila studies the stone above her.

LEILA
It's been here for forty-five
centuries.

RAMI
And we're only noticing it now.

Leila glances down at the ring.

A memory intrudes—

FLASHBACK - INT. CAIRO APARTMENT - NIGHT

Her father paces obsessively.

FATHER
The pyramids aren't monuments.
They're mechanisms.

LEILA (YOUNGER)
You're risking your career for
this.

FATHER
Careers are temporary. Structures
endure.

He holds up the ring.

FATHER (CONT'D)
Our line has guarded something long
before academia.

LEILA (YOUNGER)
Guarded what?

He hesitates.

FATHER
Responsibility.

BACK TO PRESENT

The HUM spikes slightly.

The drone camera shifts.

A faint vertical seam becomes visible in the black surface.

SAMIR
There.

RAMI
That wasn't visible before.

LEILA
It's responding to observation.

SAMIR
Observation?

LEILA
Or proximity.

She steps closer to the wall.

Her ring vibrates again.

Stronger this time.

The waveform on the monitor shifts phase.

SAMIR
Leila-

She presses her palm gently to the granite beneath the void.

Instantly-

The black surface on screen pulses faint blue.

The vertical seam widens by a fraction of a millimeter.

RAMI
Step back.

LEILA
It's reactive.

SAMIR
To what?

Leila looks at her hand.

Then at the ring.

VISION - ANCIENT LOWER CHAMBER - NIGHT (2600 BCE)

Khufu stands before the unfinished core.

A storm rages outside.

His hand bears the same geometric symbol engraved on the ring.

He presses his palm against a recessed node.

The chamber ignites faintly.

KHUFU
(softly)
Hold.

His face shows strain.

But also resolve.

BACK TO PRESENT

Leila jerks her hand away.

The blue pulse fades.

Silence.

The HUM lowers but does not disappear.

SAMIR
Your biometric spike coincided with
the signal shift.

RAMI
Coincided how?

SAMIR
Her heart rate synchronized with
the waveform.

Leila says nothing.

She stares at the seam.

LEILA
There's a chamber below.

SAMIR
Below the King's Chamber?

LEILA
Yes.

RAMI
Impossible.

LEILA
So is this.

She touches the ring again.

Quietly.

INT. FIELD LAB - LATER

Leila sits alone.

Her father's journal open beside her.

She reads silently.

INSERT - JOURNAL

"The void is not empty. It is dormant."

"The mechanism requires lineage."

Her breath catches.

She flips the page.

INSERT - JOURNAL SKETCH

A ring. Identical to hers.

Annotated: "Key."

Leila's jaw tightens.

She whispers:

LEILA
You knew.

INT. KING'S CHAMBER - NIGHT

The team prepares to widen the aperture slightly.

Controlled expansion.

Drill engages briefly.

Dust falls.

The seam inside the void widens further.

Blue light traces the hexagonal pattern faintly.

SAMIR
Energy amplitude rising.

The HUM grows deeper.

Leila feels it in her chest.

Her vision flickers—

VISION - ANCIENT SKY

Auroras ripple violently over Egypt.

Villagers kneel in terror.

Khufu stands alone beneath the sky.

KHUFU
For them.

BACK TO PRESENT

Leila steadies herself.

LEILA
We're not opening a tomb.

RAMI
What are we opening?

Leila meets his eyes.

LEILA
A system.

The seam inside the void parts slightly.

Revealing darkness beneath.

The HUM deepens.

Not violent.

Awakening.

CUT TO BLACK.

INT. KING'S CHAMBER - CONTINUOUS

The widened seam glows faint blue.

Dust floats in suspended silence.

SAMIR studies the waveform.

SAMIR
Signal amplitude increasing in
steady intervals.

RAMI
Cut external power.

SAMIR
We're not powering it.

Leila steps directly beneath the aperture.

She removes the ring slowly.

Holds it up toward the opening.

The blue pulse flickers in response.

SAMIR (CONT'D)
Leila-

The HUM shifts pitch.

Subtle. Responsive.

Leila lowers the ring.

The pulse settles.

RAMI
What did you just do?

LEILA
I didn't do anything.

But she knows she did.

INT. FIELD LAB - MOMENTS LATER

Live satellite overlays fill the monitors.

Global solar activity trending upward.

SAMIR
Solar index climbing again.

RAMI
Another flare?

SAMIR
Smaller than the last.

Leila stares at the black surface feed.

LEILA
It's testing capacity.

SAMIR
Testing?

LEILA
Incremental activation.

She turns to Samir.

LEILA (CONT'D)
It wasn't built for spectacle.

Beat.

LEILA (CONT'D)
It was built for threshold events.

INT. LOWER VOID - DRONE FEED

The drone descends through the vertical seam.

Dark shaft.

Perfectly smooth black walls.

No chisel marks.

No dust.

It reaches an opening.

The camera tilts downward—

Reveals a vast chamber below.

At its center—

A suspended column of the same black material.

Hovering slightly above a recessed base.

Blue light pulses along faint radial lines in the floor.

SAMIR

My God.

Leila doesn't speak.

Her breathing slows.

Recognition.

VISION - ANCIENT LOWER CHAMBER - NIGHT (2600 BCE)

The chamber fully active.

Blue energy floods the space.

Khufu stands alone before the core.

No crown.

No court.

Only burden.

KHUFU

(to unseen presence)

Will they survive?

A distant VOICE – not spoken, but resonant.

VOICE

If you endure.

Khufu closes his eyes.

Places both hands on the core.

The chamber ignites brighter.

BACK TO PRESENT

Leila grips the console.

LEILA

It's a harmonic anchor.

SAMIR
Meaning?

LEILA
It absorbs solar overload and re-
phases it into Earth's field.

RAMI
You're describing planetary
stabilization.

LEILA
Yes.

Silence.

INT. FIELD LAB - LATER

Leila sits alone with her father's journal again.

The ring rests beside it.

She flips to a page marked in red.

INSERT - JOURNAL ENTRY

"Khufu was not worshipped because he was powerful. He was
obeyed because he endured."

Leila exhales slowly.

Memory intrudes—

FLASHBACK - INT. HOSPITAL ROOM - NIGHT

Her father lies weak in bed.

Machines humming.

FATHER
They mocked me.

LEILA (OLDER, 20S)
You let them.

FATHER
Because proof wasn't ready.

He takes her hand weakly.

FATHER (CONT'D)
 Legacy is not about being believed.

Beat.

FATHER (CONT'D)
 It's about holding the line until
 others understand.

He presses the ring into her palm again.

FATHER (CONT'D)
 You'll know when it's time.

BACK TO PRESENT

Leila slides the ring back onto her finger.

The HUM in the pyramid deepens slightly.

She closes the journal.

Decision forming.

INT. GREAT PYRAMID - DESCENT SHAFT - DAY

Leila lowers herself carefully through the vertical shaft.

Samir monitors her vitals.

SAMIR (O.S.)
 Radiation stable.

RAMI (O.S.)
 If anything shifts, you come back
 up.

LEILA
 Understood.

She reaches the lower chamber floor.

Steps into the vast hidden space.

Blue light pulses gently.

The HUM resonates through her bones.

She approaches the suspended column.

Stops inches away.

The ring vibrates again.

Stronger.

She lifts her hand slowly toward the surface—

And stops.

Her breathing tightens.

VISION - KHUFU

Khufu kneels alone in the chamber.

Storm shaking the earth above.

He trembles.

Not from fear.

From strain.

KHUFU

For them.

His face hardens.

Acceptance.

BACK TO PRESENT

Leila whispers—

LEILA

For them.

She presses her palm against the column.

Instantly—

The chamber ignites bright blue.

The etched geometry across the floor illuminates fully.

SAMIR (O.S.)

Signal spike!

Global magnetometer readings flicker on monitors above.

The HUM becomes a deep resonant chord.

Leila's eyes widen.

She feels—

Not pain.

Burden.

Responsibility.

The light stabilizes slightly.

She removes her hand.

The glow dims.

The chamber returns to low pulse.

Breathing hard, she studies the base.

Three recessed nodes surround the column.

LEILA
It needs three points of
calibration.

SAMIR (O.S.)
Three?

LEILA
Three harmonic inputs.

She looks at the ring.

Realization dawning.

LEILA (CONT'D)
He wasn't alone down here.

The HUM continues.

Steady.

Anticipating the coming storm.

CUT TO BLACK.

INT. LOWER CHAMBER - CONTINUOUS

Blue light pulses in slow intervals.

Leila circles the suspended column.

The three recessed nodes sit equidistant around the base.

SAMIR (O.S.)
Your heart rate elevated during
contact.

LEILA
Because it synchronized.

RAMI (O.S.)
Synchronized with what?

Leila studies the etched geometry in the floor.

Constellations.

Ratios.

Orbital alignments.

LEILA
With the incoming radiation model.

SAMIR
You're saying the chamber
anticipates solar load?

LEILA
Yes.

She kneels beside one node.

Touches the edge carefully.

The HUM shifts slightly.

Her ring vibrates in answer.

FLASHBACK - INT. CAIRO APARTMENT - NIGHT

Her father adjusts a small oscilloscope.

FATHER
Everything in the universe
oscillates.

Young Leila watches skeptically.

FATHER (CONT'D)
Stars. Planets. Even stone under
stress.

He taps the ring.

FATHER (CONT'D)
Some families carry frequency
markers.

LEILA (YOUNGER)
That's superstition.

FATHER
No.

Beat.

FATHER (CONT'D)
It's resonance.

BACK TO PRESENT

Leila removes the ring again.

Examines the engraving more closely.

The geometric pattern matches the three-node alignment.

She places the ring gently into the first recessed node.

The chamber responds instantly.

A soft flare of blue light.

SAMIR (O.S.)
Signal spike.

The waveform stabilizes slightly.

LEILA
It's not just symbolic.

RAMI (O.S.)
What did you just do?

LEILA
Completed one phase.

The HUM grows deeper.

But controlled.

INT. FIELD LAB - SAME TIME

Samir overlays live solar forecasts.

SAMIR
Major flare predicted in twenty
hours.

RAMI
Carrington-level?

SAMIR
Possibly.

Rami exhales.

RAMI
If this structure fails-

SAMIR
Global grid collapse.

Silence.

INT. LOWER CHAMBER - PRESENT

Leila studies the second recessed node.

Empty.

She hesitates.

The chamber pulses softly.

LEILA
Khufu needed three.

SAMIR (O.S.)
Three biological calibrations?

LEILA
Yes.

RAMI (O.S.)
There's only one of you.

Leila looks at the suspended column.

LEILA
Not exactly.

Her vision flickers-

VISION - ANCIENT LOWER CHAMBER

Khufu stands at the center.

Two PRIESTS flank him at adjacent nodes.
 They press their hands down.
 The chamber ignites brighter.
 The storm outside intensifies.

KHUFU
 Hold steady!

The priests tremble violently.
 One collapses.
 Khufu strains harder.

KHUFU (CONT'D)
 For them!

The chamber stabilizes.
 But at great cost.

BACK TO PRESENT

Leila stumbles slightly.

SAMIR (O.S.)
 Leila?

LEILA
 He didn't endure alone.

She steadies herself.

LEILA (CONT'D)
 He carried it when others fell.

RAMI (O.S.)
 And you plan to do the same?

Leila doesn't answer.
 She studies the node where the ring now rests.
 Blue light pulses gently around it.

INT. FIELD LAB - NIGHT

Solar flare projections intensify.

SAMIR
Impact window shortened. Eighteen
hours.

RAMI
We need contingency plans.

SAMIR
There are none if this fails.

Leila climbs back up into the lab.

Dust-covered.

Eyes resolved.

LEILA
Then it won't fail.

Rami studies her.

RAMI
You're thinking of staying down
there.

She doesn't deny it.

INT. LOWER CHAMBER - LATER

Leila returns alone.

The ring glows faintly within the first node.

She kneels at the second.

Places her bare hand on it.

The HUM deepens.

Blue energy traces across the floor geometry.

Her breathing tightens.

SAMIR (O.S.)
Amplitude increasing.

LEILA
It needs continuity.

She keeps her hand in place.

The waveform smooths slightly.

But fluctuates.

SAMIR
It's unstable without a third
phase.

LEILA
I know.

She stares at the final empty node.

The chamber waits.

The HUM steady.

Anticipating the storm.

CUT TO BLACK.

AMBER - CONTINUOUS

Blue light runs through the etched floor like distant
lightning.

Leila kneels at the second node, palm pressed firmly down.

The first node holds the ring - glowing faintly.

The third node remains dark.

The HUM deepens.

SAMIR (O.S.)
Solar activity spike confirmed.
Flare velocity increased.

RAMI (O.S.)
Time to impact?

SAMIR
Sixteen hours and narrowing.

Leila studies the final node.

Her breathing grows measured.

VISION - ANCIENT LOWER CHAMBER (2600 BCE)

The storm above tears across the desert.

Khufu stands between two priests.

One priest falters – collapses under the strain.
 Energy surges violently.

KHUFU
 Stay with me!

The remaining priest screams.
 The chamber destabilizes.
 Khufu lunges – grabs the third node himself.
 Blue energy arcs violently across his body.
 He trembles – nearly falls.

KHUFU (CONT'D)
 For them!

The chamber stabilizes.
 But his skin flickers unnaturally – altered.
 Not divine.
 Changed.

BACK TO PRESENT

Leila gasps slightly.
 She understands.
 Three biological calibrations.
 Two are insufficient.
 She removes her hand from the second node.
 The HUM destabilizes slightly.

SAMIR (O.S.)
 Leila, the waveform–

She places her palm back down quickly.
 It steadies.

RAMI (O.S.)
 You can't hold two positions at
 once.

LEILA

He did.

SAMIR

He had three participants.

Leila looks at the third node.

Her father's voice echoes in memory—

FLASHBACK - HOSPITAL ROOM

FATHER

True leadership isn't glory.

Beat.

FATHER (CONT'D)

It's absorbing what others cannot.

BACK TO PRESENT

Leila exhales slowly.

She removes the ring from the first node.

The blue light dims slightly.

She slips it back onto her finger.

SAMIR (O.S.)

Why did you—

LEILA

Because it isn't the ring.

She looks at her hands.

LEILA (CONT'D)

It's the lineage.

She places her right hand on the first node.

Her left on the second.

Blue energy ignites brighter than before.

The chamber trembles.

SAMIR

Leila— that's too much load.

Her breathing becomes strained.

The HUM grows louder.

RAMI
Step back!

LEILA
No.

The floor geometry fully illuminates.

But the third node remains dark.

Unbalanced.

INT. FIELD LAB - CONTINUOUS

Solar projections spike red.

SAMIR
Major CME confirmed. Carrington-
level potential.

RAMI
Global power operators initiating
shutdowns.

SAMIR
Won't matter if grid transformers
fry.

INT. LOWER CHAMBER - PRESENT

Leila struggles to maintain contact.

Her heart rate spikes.

Sweat forms on her brow.

The ring glows faintly now on her finger.

She looks at it.

Then—

She presses her forehead gently against the column.

Completing the third contact point.

Instantly—

The chamber explodes in brilliant blue light.

The HUM becomes a deep harmonic chord.

All three nodes ignite.

SAMIR (O.S.)
Waveform locking!

RAMI
Is she stable?

SAMIR
Barely.

Leila's eyes flutter—

VISION - KHUFU

Khufu kneels alone in the chamber.

Both priests gone.

Energy coursing violently.

His body flickers between human and something slightly other.

KHUFU
(through pain)
I endure.

He looks upward.

KHUFU (CONT'D)
For them.

BACK TO PRESENT

Leila whispers—

LEILA
For them.

Her father's voice overlaps faintly—

FATHER (V.O.)
Hold the line.

The HUM stabilizes.

The blue light settles into steady resonance.

SAMIR
Field harmonics aligned!

RAMI
Solar impact in five hours.

Leila remains locked in position.

Breathing controlled.

Her eyes open slowly.

Resolved.

She is not afraid now.

She understands.

CUT TO BLACK.

INT. LOWER CHAMBER - CONTINUOUS

Leila remains braced against the column.

Right hand on first node.

Left hand on second.

Forehead pressed to the core.

The ring glows faintly on her finger.

The chamber hums in deep, stable resonance.

SAMIR (O.S.)
Solar velocity increasing. Impact
window shortened to three hours.

RAMI (O.S.)
Global auroras already visible in
upper latitudes.

Leila's breathing is steady - but shallow.

The blue light pulses through her skin faintly.

EXT. EARTH - SPACE

The coronal mass ejection barrels toward Earth.

A luminous wall of charged plasma.

Silent.

Inevitable.

INT. FIELD LAB - CONTINUOUS

Magnetosphere models ripple violently.

SAMIR

We're seeing compression along the
dayside.

RAMI

Meaning?

SAMIR

The shield is taking strain.

He glances at Leila's vitals.

SAMIR (CONT'D)

So is she.

INT. LOWER CHAMBER - PRESENT

The HUM deepens further.

Leila's muscles tremble slightly.

Her vision flickers—

VISION - ANCIENT DESERT SKY (2600 BCE)

Auroras ripple violently over Egypt.

Lightning arcs sideways across the horizon.

Villagers cry out in fear.

Children cling to mothers.

Khufu stands at the pyramid's entrance.

Watching the sky.

Alone.

INT. ANCIENT LOWER CHAMBER - CONTINUOUS

Khufu presses himself fully into the core.

Energy arcs violently across his body.

His eyes glow faint blue.

He gasps – nearly collapsing.

KHUFU
(whisper)
I will not break.

The chamber stabilizes.

But something in him shifts.

He is no longer entirely untouched.

BACK TO PRESENT

Leila inhales sharply.

The same blue flicker dances across her eyes.

SAMIR (O.S.)
Neural activity spiking.

RAMI
Pull her out.

SAMIR
If she disengages now, the system
may destabilize.

Rami hesitates.

INT. LOWER CHAMBER

Leila's voice is barely audible.

LEILA
How long?

SAMIR (O.S.)
Two hours to peak impact.

She nods slightly.

Her father's voice echoes faintly–

FATHER (V.O.)
You'll know when it's time.

She tightens her grip.

INT. FIELD LAB

SAMIR
We're seeing preliminary
electromagnetic surges in South
America.

RAMI
Transformer failures?

SAMIR
Minor. But increasing.

He looks at Leila's waveform overlay.

SAMIR (CONT'D)
The chamber is absorbing
significant load already.

EXT. EARTH - SPACE

The CME strikes.

A violent ripple across Earth's magnetosphere.

INT. LOWER CHAMBER

The HUM explodes into thunderous resonance.

Blue light engulfs the chamber.

Leila screams - not from fear - but from overload.

SAMIR (O.S.)
Impact confirmed!

Global magnetometer readings spike violently.

Floor geometry glows blinding white-blue.

The pyramid trembles.

Stone dust falls from above.

RAMI
Structural stress increasing!

SAMIR
Field alignment holding- barely!

Leila's hands begin to slip.

The second node flickers unstable.

LEILA
(staggered breath)
Rebalance—

She shifts slightly, pressing harder into the core.

The third contact point intensifies.

Energy arcs across her arms.

Her skin glows faintly.

VISION - KHUFU

Khufu collapses to one knee.

Energy surging violently.

His skin flickers between natural and something subtly luminous.

He screams — but does not release the core.

KHUFU
For them!

BACK TO PRESENT

Leila whispers—

LEILA
For them.

Her father's face overlays briefly.

FATHER (V.O.)
Hold the line.

The HUM begins to smooth.

The violent spikes flatten into stable harmonic waves.

SAMIR
Field stabilizing!

RAMI
Global grid?

SAMIR
Transformer damage minimal!
Cascading failures avoided!

Leila's body trembles violently.

But she remains in contact.

The blue light dims gradually as the flare's peak passes.

The HUM lowers from thunder to deep steady resonance.

SAMIR (CONT'D)
Peak has passed.

RAMI
Is she stable?

SAMIR
Vitals weak - but steady.

INT. LOWER CHAMBER

The chamber returns to soft blue pulse.

Leila slowly lifts her forehead from the core.

Her hands fall away from the nodes.

She collapses to her knees.

Breathing heavily.

The ring dims.

The HUM softens to gentle rhythm.

Alive.

But resting.

Leila looks up at the suspended column.

Tears mix with dust on her face.

LEILA
You endured.

She touches her chest.

LEILA (CONT'D)
So will we.

CUT TO BLACK.

THE PHARAOH
Revised - Elevated Version

Pages 61-70

INT. LOWER CHAMBER - MOMENTS LATER

Dust settles.

The blue glow softens to a low, breathing pulse.

Leila lies on her side, conscious but drained.

The suspended column hums quietly above her.

SAMIR (O.S.)
Leila. Stay with us.

LEILA
I'm here.

RAMI (O.S.)
Can you stand?

She pushes herself upright slowly.

Her hands tremble - faint residual blue veins visible beneath her skin.

The ring is warm.

Not glowing now.

Just heavy.

INT. FIELD LAB - CONTINUOUS

Samir studies post-impact data.

SAMIR
Global grid stable. Satellite
systems intact.

RAMI
Casualties?

SAMIR
Minimal infrastructure loss.

Rami exhales slowly.

RAMI
She did it.

Samir glances at Leila's neural scan.

SAMIR
The chamber did it.

Beat.

SAMIR (CONT'D)
She anchored it.

INT. LOWER CHAMBER

Leila stands shakily.

She approaches the column again.

Places her hand gently against it.

This time the HUM remains calm.

Balanced.

LEILA
(softly)
You're not finished.

She looks at the three nodes.

Two still faintly warm.

The third now cooled.

She understands something deeper.

VISION - ANCIENT LOWER CHAMBER (2600 BCE)

Khufu lies on the chamber floor.

The storm has passed.

Priests descend cautiously.

They recoil slightly at his appearance.

His skin bears faint geometric scars.

Subtle.

Permanent.

KHUFU
(weak but steady)
Seal it.

PRIEST
My lord... you are changed.

Khufu touches the scar on his arm.

KHUFU
So is the world.

He stands slowly.

KHUFU (CONT'D)
It sleeps until needed again.

The priests obey.

BACK TO PRESENT

Leila lifts her sleeve.

Faint geometric impressions glow briefly along her forearm.

Then fade.

She stares at them.

Not afraid.

Understanding.

INT. GOVERNMENT BRIEFING ROOM - DAY

Rami stands before senior officials.

OFFICIAL #1
We intercepted abnormal
magnetosphere stabilization data.

OFFICIAL #2
Explain the anomaly.

Rami chooses his words carefully.

RAMI
Localized geomagnetic resonance
amplified natural shielding.

OFFICIAL #1
Can it be replicated?

Rami hesitates.

RAMI
Not reliably.

OFFICIAL #2
Could it be controlled?

Beat.

RAMI
It requires variables we do not
possess.

The officials exchange looks.

OFFICIAL #1
Continue observation.

INT. FIELD LAB - NIGHT

Leila sits alone with her father's journal.

She flips to a final marked page.

INSERT - JOURNAL ENTRY

"He endured the storm. But the cost was solitude."

Leila swallows.

FLASHBACK-

FLASHBACK - INT. CAIRO APARTMENT - ARGUMENT

Young Leila stands in doorway.

LEILA (YOUNGER)
You care more about dead kings than
your own daughter.

FATHER
I care about what protects you!

LEILA (YOUNGER)
From what?

He cannot answer.

Because he cannot prove it.

BACK TO PRESENT

Leila closes the journal slowly.

Tears threaten – but she contains them.

LEILA (CONT'D)
You were right.

She touches the ring.

LEILA (CONT'D)
But you didn't have to carry it
alone.

INT. GREAT PYRAMID – KING'S CHAMBER – NIGHT

The shaft is being prepared for resealing.

Stone plates ready.

RAMI
We close it now.

SAMIR
Permanently?

Leila steps forward.

LEILA
Yes.

SAMIR
What if the next flare–

LEILA
The system will wake again.

RAMI
And if you're not here?

Leila looks at the ring.

LEILA
Then someone else will be.

Beat.

LEILA (CONT'D)
Legacy doesn't end with me.

INT. LOWER CHAMBER - FINAL VISIT

Leila descends one last time.

Alone.

The column pulses faintly.

She removes the ring.

Places it gently against the surface.

The HUM shifts - recognition.

LEILA
You carried him.

Beat.

LEILA (CONT'D)
You carried me.

She slides the ring back onto her finger.

LEILA (CONT'D)
Now we carry it forward.

For a brief moment-

Khufu's reflection appears faintly in the polished black surface.

Not ghostly.

Not supernatural.

Memory embedded in structure.

He nods once.

Then gone.

The chamber dims slightly.

Settling into dormancy.

INT. KING'S CHAMBER - CONTINUOUS

The aperture is sealed with precision stonework.

From the outside, nothing is altered.

No evidence.

No monument to what lies beneath.

EXT. GIZA PLATEAU - DAWN

The first light of morning hits the pyramid.

Tourists gather again.

Cameras click.

No one senses the system below.

Leila stands alone at the perimeter.

She looks up at Orion rising faintly in the fading sky.

Her father's voice echoes softly—

FATHER (V.O.)
Legacy is what survives because of
you.

Leila exhales.

Steady.

Alive.

INT. LOWER CHAMBER - FINAL IMAGE

Darkness.

Then—

A faint pulse.

Slow.

Measured.

Waiting.

FADE OUT.

EXT. GIZA PLATEAU - NIGHT

The Pyramid stands quiet.

Wind moves sand across ancient stone.

Beneath it—

A faint harmonic pulse.

Subtle.

Persistent.

INT. FIELD LAB - ONE WEEK LATER

Most equipment has been dismantled.

But several monitors remain active.

Samir studies new solar telemetry.

His expression shifts.

SAMIR

That's not possible.

Leila enters, pale but steady.

The faint geometric impressions on her forearm are gone.

Mostly.

LEILA

What is it?

Samir rotates the monitor.

A new solar disturbance model.

Larger.

Faster.

SAMIR

A secondary ejection.

RAMI enters.

RAMI

Impact window?

SAMIR

Thirty-six hours.

Silence.

LEILA

That shouldn't happen so soon.

SAMIR

It's rare. But not impossible.

Leila stares at the waveform.

This one is stronger.

Less predictable.

INT. LOWER CHAMBER - NIGHT

Leila descends again.

The column is dim.

Dormant.

She steps closer.

Places her hand against the surface.

Nothing.

The HUM remains faint.

LEILA

Wake.

Silence.

She removes the ring.

Presses it to the column.

A faint flicker responds.

But weak.

VISION - ANCIENT LOWER CHAMBER

Khufu stands older now.

Scars more pronounced.

A second storm brews outside.

PRIEST

My lord... your strength is
diminished.

KHUFU

It must not matter.

He approaches the core again.

His hands tremble this time.

He is not as strong.

But he does not hesitate.

BACK TO PRESENT

Leila understands.

The system isn't fully recharged.

SAMIR (O.S.)

Leila, the chamber's output
baseline hasn't returned to pre-
flare levels.

LEILA

It hasn't recovered.

RAMI (O.S.)

Meaning?

LEILA

It absorbed too much.

She looks at the three nodes.

LEILA (CONT'D)

And I did too.

INT. FIELD LAB - CONTINUOUS

SAMIR

If the second flare hits at full
strength—

RAMI

The system may not stabilize.

LEILA

It needs amplification.

SAMIR

From where?

Leila studies the geometry of the chamber floor.

LEILA

The pyramid itself.

RAMI
Explain.

LEILA
The structure is aligned to Orion.
The chamber is a core amplifier.
But the mass of stone above it acts
as harmonic stabilizer.

SAMIR
You're saying the entire pyramid is
part of the system.

LEILA
Yes.

Beat.

LEILA (CONT'D)
And we've only activated the core.

INT. KING'S CHAMBER - LATER

Leila studies the original passage layout.

Ancient air shafts.

Orientation angles.

She traces the lines with her finger.

The ring catches faint light.

LEILA
These aren't air shafts.

SAMIR
They align to specific stars.

LEILA
They align to frequency release
points.

RAMI
Release what?

LEILA
Excess load.

She turns.

LEILA (CONT'D)
 If we open the shafts fully, the
 pyramid can dissipate more energy.

RAMI
 Opening ancient sealed channels
 during a solar event?

LEILA
 It's what he intended.

VISION - ANCIENT PYRAMID - DAY

Khufu oversees final construction.

Workers align internal shafts.

KHUFU
 They must remain precise.

PRIEST
 For burial rites?

Khufu studies the horizon.

KHUFU
 For balance.

BACK TO PRESENT

Leila moves with urgency now.

LEILA
 We unseal the shafts.

RAMI
 You realize what that means?

LEILA
 Yes.

RAMI
 International oversight. Media.
 Military interest.

LEILA
 Then we do it before anyone
 notices.

EXT. GIZA PLATEAU - NIGHT

Heavy equipment is repositioned quietly.

A controlled team works discreetly.

No public announcements.

No press.

The second CME glows faintly on horizon forecasts.

INT. LOWER CHAMBER - CONTINUOUS

Leila stands before the column.

She presses both palms to it.

The HUM responds faintly.

Weak but present.

LEILA
You're not done.

Her father's voice echoes softly—

FATHER (V.O.)
Legacy is endurance.

She closes her eyes.

The chamber flickers slightly brighter.

But not enough.

SAMIR (O.S.)
Solar impact in twenty-eight hours.

Leila opens her eyes.

Determined.

LEILA
Then we finish what he started.

The HUM deepens slightly.

The storm is coming again.

CUT TO BLACK.

EXT. GIZA PLATEAU - PRE-DAWN

Wind sweeps across scaffolding.

Controlled crews remove ancient stone plugs from the narrow star shafts.

No announcements. No press.

Only quiet urgency.

RAMI oversees personally.

RAMI
Minimal external disturbance. No
structural compromise.

ENGINEER
Understood.

Above them, the sky flickers faint green at the horizon.

Auroral distortion already forming.

INT. KING'S CHAMBER - CONTINUOUS

Dust falls as the final granite obstruction is loosened.

A faint current of air moves through the shaft.

SAMIR watches monitors.

SAMIR
Resonance pattern shifting.

LEILA
It's breathing.

The HUM deepens below them.

Low. Expanding.

INT. LOWER CHAMBER

Leila stands before the suspended column.

The ring warm against her skin.

Blue light pulses weak but present.

She looks upward - toward the unseen shafts.

LEILA
You built lungs into stone.

The chamber flickers brighter.

VISION - ANCIENT PYRAMID - NIGHT (2600 BCE)

Khufu oversees the final shaft alignment.

PRIEST
Why leave channels to the sky?

KHUFU
Because it must release what it
absorbs.

He looks up at Orion.

KHUFU (CONT'D)
Or it will break.

BACK TO PRESENT

Leila nods slightly.

Understanding complete.

INT. FIELD LAB

SAMIR
Solar velocity accelerating. Impact
window shortened - twelve hours.

RAMI
Can the pyramid carry the load?

SAMIR
If the shafts function as release
conduits... possibly.

Leila watches a live structural simulation.

Stone mass mapped in harmonic overlay.

LEILA
The pyramid isn't a tomb.

Beat.

LEILA (CONT'D)
It's a capacitor.

EXT. SPACE - EARTH

The second CME approaches - larger, more chaotic.
Charged plasma arcs violently within its mass.

INT. LOWER CHAMBER

Leila steps into position again.

Three nodes at her feet.

The first activation nearly cost her everything.

She breathes slowly.

Removes the ring.

Places it into the first node.

The chamber ignites brighter than before.

The open shafts above respond.

A faint column of light travels upward through unseen channels.

SAMIR (O.S.)
Energy traveling vertically through
shaft system!

RAMI (O.S.)
Is that good?

SAMIR
It's distributing load.

Leila places one hand on the second node.

The HUM grows louder.

She hesitates before touching the third.

Her hands tremble.

FLASHBACK - HOSPITAL ROOM

Her father grips her wrist.

FATHER
If it wakes again... you won't have
the luxury of doubt.

LEILA
What if I'm wrong?

FATHER
Then you carry the cost.

Beat.

FATHER (CONT'D)
That's what leadership is.

BACK TO PRESENT

Leila places her forehead against the core once more.

Completing the third point.

The chamber explodes in brilliant blue.

But this time—

The energy surges upward through the open shafts.

Light beams shoot through ancient channels toward the stars.

EXT. GIZA PLATEAU - CONTINUOUS

A faint blue glow emits from the pyramid's apex.

Subtle.

Almost invisible.

But satellites catch it.

INT. GOVERNMENT OPERATIONS CENTER - NIGHT

Large screens display anomaly alerts.

TECHNICIAN
We're detecting an electromagnetic
surge over Giza.

OFFICIAL
Source?

TECHNICIAN
The pyramid.

Silence.

OFFICIAL
Is it weaponized?

TECHNICIAN
Unknown.

INT. LOWER CHAMBER

The CME strikes Earth.

The HUM becomes thunder.

The pyramid trembles violently.

Energy pours upward through shafts in blinding columns of blue.

Leila screams – but does not release.

SAMIR (O.S.)
Magnetosphere stabilization rising!

RAMI
Structural stress at 80%!

Stone cracks echo above.

Dust rains down.

Leila's arms glow faint blue again.

Her pulse weakens.

SAMIR
Leila, your vitals–

LEILA
(through pain)
It has to release–

The energy intensifies.

The shafts glow brighter.

The overload begins to flatten.

Waveforms smooth.

SAMIR
Field stabilizing!

RAMI
Grid integrity?

SAMIR

 Holding!

The violent spikes subside.

The blue light lowers from blinding to steady.

Leila collapses to her knees.

The ring ejects from the first node, clattering to the floor.

The chamber dims.

The HUM settles into deep steady rhythm.

Alive.

Stronger than before.

INT. FIELD LAB

SAMIR

 Global infrastructure intact.

RAMI

 Any abnormal readings?

SAMIR

 Only one.

He turns the screen.

A residual harmonic signature remains above Giza.

Persistent.

RAMI

 Meaning?

SAMIR

 The system has fully awakened.

INT. LOWER CHAMBER

Leila lies on the floor.

Breathing shallow.

She stares up at the column.

LEILA

 You won't need me next time.

The HUM answers.

Steady.

Autonomous.

Her sacrifice completed the design.

EXT. GIZA PLATEAU - DAWN

The sky calms.

Auroras fade.

The pyramid stands silent again.

But subtly different.

Awake.

CUT TO BLACK.

INT. LOWER CHAMBER - DAWN

Silence.

The suspended column pulses in slow, steady rhythm.

Leila sits upright now, exhausted but conscious.

The ring lies on the floor beside her.

It no longer glows.

She picks it up.

Slips it back onto her finger.

The HUM remains unchanged.

Autonomous.

INT. FIELD LAB - CONTINUOUS

Samir studies new data overlays.

SAMIR
Baseline harmonic field remains
active.

RAMI
Meaning?

SAMIR
It no longer requires manual
calibration.

He looks toward the descent shaft.

SAMIR (CONT'D)
She completed the circuit.

INT. GOVERNMENT OPERATIONS CENTER - DAY

High-resolution satellite images of Giza rotate on massive
screens.

OFFICIAL #1
Energy signature persists.

OFFICIAL #2
Could this be replicated elsewhere?

TECHNICIAN
Unknown material composition.

OFFICIAL #1
Send inquiry to Egyptian Ministry.

INT. FIELD LAB - DAY

Rami ends a secure call.

RAMI
They know something happened.

LEILA
They don't know what.

RAMI
They want access.

LEILA
To weaponize?

RAMI
To control.

Leila looks toward the sealed shaft above.

LEILA
It cannot be controlled.

SAMIR
Anything can be studied.

LEILA
Not this.

She walks past them toward the pyramid interior.

INT. KING'S CHAMBER - CONTINUOUS

The reopened shafts glow faintly in residual blue.

Leila studies them.

LEILA
He built it to stabilize.

Beat.

LEILA (CONT'D)
Not to dominate.

Rami watches her carefully.

RAMI
You're certain?

Leila turns to him.

LEILA
If this becomes public, it becomes
a race.

SAMIR
A race for replication.

RAMI
Or destruction.

Silence.

FLASHBACK - CAIRO APARTMENT

Young Leila stands in doorway.

LEILA (YOUNGER)
Why not publish everything?

FATHER
Because truth without readiness
becomes catastrophe.

LEILA (YOUNGER)
That's arrogant.

FATHER
No.

Beat.

FATHER (CONT'D)
It's protective.

BACK TO PRESENT

Leila understands now.

INT. LOWER CHAMBER - NIGHT

Leila descends alone once more.

The chamber is calm.

Fully awake.

The HUM no longer fluctuates.

It is stable.

She stands before the column.

LEILA
It's done.

The polished surface reflects her face.

And behind her—

For a brief moment—

Khufu's reflection stands aligned with hers.

Older.

Scarred.

Steady.

KHUFU (VISION)
You carried it.

Leila's eyes fill slightly.

LEILA
You started it.

KHUFU

No.

Beat.

KHUFU (CONT'D)

We did.

The reflection fades.

The column pulses once.

Stronger.

Then settles.

INT. FIELD LAB - SAME TIME

Samir monitors the harmonic field.

SAMIR

It's reinforcing the magnetosphere
passively.

RAMI

Meaning no more intervention
required?

SAMIR

Unless solar output exceeds modeled
projections.

RAMI

Which could happen.

SAMIR

Yes.

INT. LOWER CHAMBER

Leila removes the ring again.

Studies it carefully.

The engraving matches the floor geometry perfectly.

She kneels.

Gently places the ring at the base of the column.

Not into a node.

Just resting against stone.

LEILA
You don't belong to me.

Beat.

LEILA (CONT'D)
You belong to it.

The HUM softens slightly.

The ring vibrates once.

Then still.

She stands.

Turns away.

Leaves the chamber.

INT. KING'S CHAMBER - CONTINUOUS

Rami waits.

RAMI
Is it secure?

LEILA
Yes.

SAMIR
Do we reseal?

Leila considers.

Long pause.

LEILA
No.

RAMI
No?

LEILA
We leave it accessible.

SAMIR
That's dangerous.

LEILA
So is ignorance.

She looks up toward the shafts.

LEILA (CONT'D)
This isn't legacy through secrecy.

Beat.

LEILA (CONT'D)
It's legacy through stewardship.

Rami studies her.

A shift.

RAMI
We classify the data. Controlled
access.

Leila nods.

Not buried.

Guarded.

EXT. GIZA PLATEAU - NIGHT

Military presence subtle but real.

Perimeter reinforced quietly.

Above, Orion rises.

The pyramid glows faintly from within.

Not dramatic.

Alive.

CUT TO BLACK.

EXT. GIZA PLATEAU - MORNING

News vans now line the distant perimeter.

Not hysteria - curiosity.

Headlines speculate:

"ANOMALOUS SOLAR STABILIZATION OVER EGYPT."

Leila watches from a distance.

No interviews.

No statements.

INT. MINISTRY CONFERENCE ROOM - DAY

Government officials sit across from Leila, Samir, and Rami.

OFFICIAL #1
Satellite data confirms a sustained
harmonic anomaly.

OFFICIAL #2
Explain what occurred.

Leila remains calm.

LEILA
The pyramid responded to solar
instability.

OFFICIAL #1
Responded how?

LEILA
By stabilizing the magnetosphere.

Murmurs ripple across the table.

OFFICIAL #2
Through unknown technology?

Leila meets his eyes.

LEILA
Through engineered stone alignment
and internal resonance.

OFFICIAL #1
That sounds incomplete.

LEILA
It is.

Silence.

OFFICIAL #2
Can it be weaponized?

Leila doesn't hesitate.

LEILA

No.

Beat.

LEILA (CONT'D)

It functions only as stabilization.

Rami watches her carefully.

OFFICIAL #1

And how are you certain?

Leila holds his gaze.

LEILA

Because its creator designed it
that way.

INT. LOWER CHAMBER - SAME TIME

The ring rests at the base of the column.

The HUM pulses steady.

Above, faint light from reopened shafts filters downward.

The system breathes.

Autonomous.

INT. UNIVERSITY LECTURE HALL - WEEKS LATER

Leila stands before students again.

Slide: The Great Pyramid.

LEILA

Civilizations leave behind more
than monuments.

She pauses.

LEILA (CONT'D)

They leave infrastructure.

A student raises a hand.

STUDENT
You're saying ancient societies
were more advanced than we assume?

Leila smiles faintly.

LEILA
I'm saying we underestimate
resilience.

She turns off the projector.

Room dims.

For a split second—

A faint low HUM lingers.

Then fades.

EXT. GIZA PLATEAU - NIGHT

The pyramid stands beneath a sky thick with stars.

Orion perfectly aligned above.

The reopened shafts emit a barely visible glow.

A stabilizing field radiates invisibly around Earth.

VISION - ANCIENT DESERT

Khufu stands alone beneath the night sky.

Storm long gone.

His scars faint but permanent.

He looks at Orion.

KHUFU
(softly)
It continues.

He turns away from the pyramid.

Walks back toward his people.

Leader.

Not god.

BACK TO PRESENT

Leila stands alone at the plateau's edge.

Wind brushes her hair.

No ring on her hand now.

She flexes her fingers.

Free.

SAMIR approaches quietly.

SAMIR
They'll keep asking questions.

LEILA
Let them.

RAMI joins them.

RAMI
We can't hide it forever.

Leila nods.

LEILA
We shouldn't.

Beat.

LEILA (CONT'D)
But we reveal it when the world is
ready.

SAMIR
And how do we know?

Leila looks up at the stars.

LEILA
When survival matters more than
power.

Silence.

INT. LOWER CHAMBER - FINAL RETURN

The ring rests undisturbed.

The suspended column pulses steady.

Then—

A subtle shift.

The harmonic field expands outward gently.

Like a breath released.

No longer reactive.

Preventative.

The pyramid now actively reinforces Earth's magnetic shield.

Continuous.

Self-sustaining.

EXT. SPACE - EARTH

The planet rotates peacefully.

Magnetosphere glows faintly stronger than before.

Invisible protection.

Earned.

EXT. GIZA PLATEAU - DAWN

The first light of sunrise touches the pyramid.

Tourists gather again.

Children laugh.

Life continues.

Leila stands one last time facing the structure.

Her father's voice echoes faintly—

FATHER (V.O.)
Legacy is what survives because of
you.

She exhales.

Peaceful.

LEILA

No.

Beat.

LEILA (CONT'D)

Legacy is what survives because of
us.

She turns.

Walks away from the pyramid.

Not as heir.

As steward.

The camera rises slowly upward—

Past stone.

Past sky.

Past atmosphere.

The magnetosphere glows steady.

Orion fades into daylight.

The HUM becomes barely audible—

Then resolves into silence.

FADE OUT.

EXT. GIZA PLATEAU - NIGHT

Weeks later.

Media presence has thinned.

Security remains - discreet but permanent.

The pyramid stands under a sky thick with stars.

Orion burns brighter than usual.

Beneath the stone—

A new frequency hums.

Almost imperceptible.

INT. LOWER CHAMBER - NIGHT

The ring rests against the base of the column.

The suspended core pulses steady.

Then—

A faint secondary waveform appears within the primary harmonic field.

Layered.

Intentional.

The polished black surface begins to ripple.

Not randomly.

Geometrically.

Ancient glyphs illuminate faintly along the floor.

Not Egyptian.

Older.

Mathematical.

INT. FIELD LAB - SAME TIME

Samir freezes.

SAMIR

Leila... we have a new harmonic signature.

Leila studies the monitor.

The waveform is complex.

Not solar.

Not terrestrial.

RAMI

External source?

SAMIR

No.

Beat.

SAMIR (CONT'D)
Internal.

The pyramid is transmitting.

INT. LOWER CHAMBER

The column brightens.

Blue light deepens into indigo.

The reopened shafts channel light upward.

But this time—

The light does not dissipate.

It ascends beyond the atmosphere.

EXT. SPACE - ABOVE EARTH

A faint pulse travels outward from the Giza region.

A harmonic signal.

Intentional.

Directed.

Into deep space.

INT. LOWER CHAMBER

The glyphs sharpen.

Three concentric star maps emerge in light.

One matches Orion.

One matches an unfamiliar cluster.

The third—

Is not yet charted.

Leila descends rapidly.

She stops before the illuminated maps.

Her breath catches.

LEILA
It wasn't just protection.

The HUM shifts pitch.

Deeper.

More complex.

VISION - ANCIENT LOWER CHAMBER (2600 BCE)

Khufu stands before the core.

The ELDER FIGURE now visible clearly for the first time.

Tall. Not monstrous.

Subtly different.

Not entirely human.

ELDER
The storms will grow stronger in
future cycles.

KHUFU
Then this will endure.

ELDER
Yes.

Beat.

ELDER (CONT'D)
Until we return.

Khufu stiffens slightly.

KHUFU
Return?

ELDER
When your species is ready to
understand what it protects.

Khufu looks toward the chamber ceiling.

Toward the stars.

KHUFU
And if they are not ready?

ELDER
Then the storms will decide.

The chamber dims.

BACK TO PRESENT

Leila's eyes widen.

LEILA
It's a beacon.

SAMIR (O.S.)
What?

LEILA
The first flare awakened it.

Beat.

LEILA (CONT'D)
The second completed it.

The glyphs rearrange.

A countdown pattern begins.

Slow.

Measured.

RAMI
Countdown to what?

Leila studies the unfamiliar star cluster.

LEILA
Signal confirmation.

EXT. SPACE - DEEP ORBIT

Far beyond Earth.

A faint echo of the harmonic pulse reaches dark space.

Silence.

Then—

A distant object responds.

A subtle shimmer against starlight.

Not large.

Not dramatic.

But moving.

INT. LOWER CHAMBER

The column pulses stronger.

The ring vibrates at its base.

Leila kneels.

Touches the floor glyph.

The unfamiliar constellation expands in projection.

SAMIR (O.S.)
It's transmitting location
coordinates.

RAMI
To whom?

Leila swallows.

LEILA
To whoever built it.

Silence.

FLASHBACK - HOSPITAL ROOM

Her father whispers faintly.

FATHER
They didn't build it alone.

Young Leila dismisses him.

BACK TO PRESENT

Now she understands.

LEILA
He knew.

SAMIR
Knew what?

LEILA
That stabilization was only phase
one.

The countdown glyph slows.

Stabilizes at a final symbol.

Alignment achieved.

The HUM deepens into layered harmonics.

Not reactive.

Communicative.

EXT. GIZA PLATEAU - NIGHT

The pyramid emits a faint vertical beam of indigo light.

Barely visible.

Satellites detect it.

Governments scramble.

But it fades quickly.

Not dramatic.

Precise.

Signal sent.

INT. GOVERNMENT OPERATIONS CENTER

Alarms flash.

TECHNICIAN
We have outbound energy projection
from Giza.

OFFICIAL
Magnitude?

TECHNICIAN
Minimal.

OFFICIAL
Destination?

TECHNICIAN
Deep space.

Silence.

OFFICIAL
Prepare response protocols.

INT. LOWER CHAMBER

The glyphs dim.

The core returns to steady pulse.

But the harmonic baseline has changed.

Stronger.

Broader.

Leila stands slowly.

LEILA
It protected us.

Beat.

LEILA (CONT'D)
And now it's calling them.

RAMI
Calling who?

Leila looks upward toward the reopened shafts.

Toward Orion.

LEILA
The architects.

EXT. SPACE - FAR DISTANCE

A distant structure shifts.

Subtle.

Massive.

Angular geometry rotates slowly.

Responding.

Its surface glows faint indigo.

Trajectory alters.

Toward Earth.

INT. LOWER CHAMBER - FINAL IMAGE

The ring at the base of the column glows faintly again.

The concentric star maps flicker once more.

A new symbol appears in the air above the core.

Not Egyptian.

Not human.

Invitation acknowledged.

The HUM deepens.

Alive.

Waiting.

EXT. EARTH - SPACE

The planet rotates peacefully.

Magnetosphere strengthened.

Protected.

But now—

Observed.

The faint shimmer of something distant approaches across the void.

Unseen by humanity.

Not hostile.

Not yet.

FADE OUT.

TITLE CARD:

THE PHARAOH WILL RETURN
