FADE IN

INT. PRESIDENT OVAL OFFICE, EARLY MORNING: 30 YEARS PLUS FROM
PRESENT DAY.

PRESIDENT CARLSON
You took your time getting here.

DR WILLIAM BLACKWELL
So you didn't get much sleep last night.

PRESIDENT CARLSON
You know I didn't.

DR WILLIAM BLACKWELL
You should have the surgery on your back,
the pain will only...

PRESIDENT CARLSON
I am not going to take ten or twelve weeks
away from my presidency, face down on a
hospital bed.

Dr Williams hands over a full pill box.

DR WILLIAM BLACKWELL
I will stop by later tonight to make sure
you get a good night's sleep.

PRESIDENT CARLSON
I can have the surgery on my back the day
after the new occupant of this chair
takes the pledge, just keep the pills
flowing till then.

Dr William gets up to leave.

PRESIDENT CARLSON
I will make America proud of my
presidency, I will have a legacy.

DISSOLVE TO:

EXT.ON THE DECK OF A VINTAGE 1930 STEAM YACHT WITH PARTY IN FULL SWING ON THE UPPER DECK: SUNNY DAY.

EVA DARNELL

Irene my baby, you didn't say you could make it today!

IRENE DARNELL

Why does our family keep such an old relic anyway?

EVA DARNELL

It's one of your family traditions, don't throw anything away and don't pay any tax.

IRENE DARNELL

and it's not like 13 sailors didn't died the first time it sailed to sea; you can even see the bullet marks on the wall. Not to mention Great Grandma Elizabeth disappearance from the deck one night!

Henry Darnell joins the two.

HENRY DARNELL

Irene finished all your studies at Harvard, good. Now tell me what you want to run in the family business.

IRENE DARNELL

I will take the Bio-Tech and Space Divisions as my little empire. I am sure John and Andrew will not even notice them missing from their portfolio of banking and insurance interests.

HENRY DARNELL

Come and see me Monday morning in the office and we can discuss the details without all these distractions around us.

Madam Vice President arrives at the group

MADAME VICE PRESIDENT

Henry so good to see you again. Here is the invitation to the White House, I do hope you can make it. President Carlson is sorry for not been able to attend your party as he has urgent business to deal with.

Hand over envelope

MADAME VICE PRESIDENT

I would also like to thank you for your vocal support....

HENRY DARNELL

Let's go and find a quiet corner to talk...

Henry and MVP leave the group

IRENE DARNELL

That's 100 million of a political donations we are not going to make.

EVA DARNELL

I sometime think it would cheaper to install John in the White House directly.

IRENE DARNELL

You know how it works mother; we have to let the little people think they run the country. I suppose with Carlson starting his first term Daddy must line up the next president.

EVA DARNELL

Cheaper than paying tax my dear girl and the donations will be tax deductible.

IRENE DARNELL

Only the little people pay tax mother, I remember!

INT. THE PRESIDENTS PRIVATE LOUNGE LATE AT NIGHT, LIGHTS DIM
ALMOST OUT.

President is sitting silently in an armchair looking fixed into
the distance, Dr William enters the room.

DR WILLIAM BLACKWELL

Mr President I want you to listen to me
voice, and my voice only.

PRESIDENT CARLSON

Yes.

DR WILLIAM BLACKWELL

I want you to count backwards from 10 and
when you reach 1 you will be asleep, and
you will only hear my voice.

PRESIDENT CARLSON

10,9,8,7.....

DR WILLIAM BLACKWELL

Now Mr President we need to think about
your Legacy, make the people proud of
your presidency, history needs to
remember you. What can you do to make the
nation proud of your presidency?

DISSOLVE TO:

INT./EXT. A DESERTED AIR CAR STATION LATE AT NIGHT: DARKNESS

A large black air car lands, windows all blacked out. A figure
quickly moves and enters the air car. The car only has one
passenger and no pilot/driver.

ROBERT ESPINOZA

Mr President I didn't expect you to pick
me up.

PRESIDENT CARLSON

One of the perks of POTUS I get free
unlimited air travel in my own invisible
air limo.

President open a panel to show a drinks cabinet.

PRESIDENT CARLSON

Can I offer you a drink, it's a long air ride?

ROBERT ESPINOZA

Why not.

PRESIDENT CARLSON

You followed all my instructions?

ROBERT ESPINOZA

Just as you told me, followed your instruction completely.

PRESIDENT CARLSON

Good! Very Good!

DISSOLVE TO:

EXT. PRESIDENT CARLSON PRIVATE AIR STATION ON HIS FLORIDA RANCH:
- LATE AT NIGHT.

Air car lands and parks inside hanger. There is no one to greet the arrivals, just the sound of the night.

PRESIDENT CARLSON

Let's take my father's old pickup truck to the house.

ROBERT ESPINOZA

After you Mister President.

PRESIDENT CARLSON

I have something special to show you on the way, I think you may find it interesting.

The two get into the pickup truck and drive off into the night.

DISSOLVE TO:

INT. DRIVING IN PRESIDENTS PICKUP TRUCK: NIGHT DARKNESS

PRESIDENT CARLSON

I can't believe I found this on the ranch, my grandfather must have known

about it, but kept it secret.

ROBERT ESPINOZA
Yes, people knew how to keep secrets back
then.

President Carlson turns off the dirt road and appears to drive
into a drainage culvert under the road.

DISSOLVE TO:

INT. HIDDEN ENTRANCE TUNNEL FOR NUCLEAR BUNKER.

Pickup parks and the two men get out with the President taking
the lead.

PRESIDENT CARLSON
This was built a hundred years ago, makes
a great man cave.

DISSOLVE TO:

INT. PRESIDENT BUNKER OFFICE, WITH PRESIDENT AND ROBERT SITTING
IN CHAIRS.

PRESIDENT CARLSON
This is my FIRST office; I can get some
clear thinking down here out of the way
of our enemies.

ROBERT ESPINOZA
What enemies Mister President?

PRESIDENT CARLSON
Let me pour you a drink and I will tell
you all about it.

Presidents pours a drink and offers it to Robert.

PRESIDENT CARLSON
Good health!

ROBERT ESPINOZA
Good health!

May need to be cut as it's a spoiler for later plot expansion.
 But give a taster in the first 12 pages of the plot.

 Robert take his last ever drink.

ROBERT ESPINOZA
 Now tell me Mister President, why all the
 secrecy and why did you want to see me
 in private.

Robert drops the glass and starts to slump in his chair.

PRESIDENT CARLSON
 (over old-fashioned
 intercom)
 You can come in Doctor; the patient is
 ready for you.

Dr William Blackwell enters the room with a surgical trolley and
 two medical robots. Loads the paralyzed Robert Espinoza onto the
 cart and wheels him out of the office.

DR WILLIAM BLACKWELL
 I will give you my autopsy and lab report
 as soon as I have it Mr President.

DISSOLVE TO:

INT. THE NUCLEAR BUNKERS MODERN MEDICAL LAB

Robert Espinoza is strapped to a surgical table in clear state
 of dissection as various medical robots continue to take blood
 and tissue samples. Head clearly cut open. (must show the same
 make and model as the robots in Dr Matt's apartment)

DR WILLIAM BLACKWELL
 The "copy number variants" are
 different, I will need to check the
 complete DNA sequence.

PRESIDENT CARLSON
 So, this difference in DNA is the proof
 of aliens on earth?

DR WILLIAM BLACKWELL
 Yes, Mr President it is how we can tell
 the aliens from US!

PRESIDENT CARLSON
 Good we can tell who is human from our
 enemies.

Robots load the remains of Robert Espinoza into a body bag and
 carry it away to be loaded into the back of the pickup truck.

DISSOLVE TO:

EXT. PRESIDENT CARLSON ALLIGATOR FARM -NIGHT TIME.

President Carlson and Dr William Blackwell drive the pickup
 truck into the back entrance of the alligator farm buildings.

Open the tail gate of the pickup and lift out a body bag!

DISSOLVE TO:

EXT. BACK THE PICKUP TRUCK TO A WALL TO A TRAP DOOR LABELED,
 "ALLIGATOR FOOD ONLY".

PRESIDENT CARLSON
 Who is next on the list?

DR WILLIAM BLACKWELL
 Darnell, Henry Darnell.

PRESIDENT CARLSON
 We will have be careful with him, it will
 be difficult, it may take some time. Find
 some other names in the meantime.

PRESIDENT CARLSON

You have seen the evidence! There are two confirmed asteroids heading for a collision course with earth, maybe more, this is not a coincidence. We must now act to save the world. Do whatever it takes!

Large wall monitor shows the asteroids trajectory and predicated impact areas. (animation sequence containing the size, speed and location of impact)

ROGER BLACKWELL

This list of names are the people we suspect of controlling the infiltration, all rich and powerful men so we need to proceed with utmost secrecy.

PRESIDENT CARLSON

I am taking steps to build and funding for the Earth Defence Project. Lucky, we have the time and resources.

President stands up.

PRESIDENT CARLSON

I am only sorry this information did not come to me sooner and therefore I must act quickly before all is lost. Do whatever you must in my name and may God protect us all. History will judge me NOW on how I act, I will not fail in my duty.

INT. SHIPS CORRIDOR TO THE STATEROOM

Captain and Crew member approach a cabin door and the captain's knock's and after hearing the response opens the door and passes into the master cabin of the boat.

The state room is the definition of private luxury and expensive living, hard red wood floors and hardwood furniture, cut glass and polished brass, or is it gold.

DARNELL
Enter Please
CAPTAIN
Evening Mr Darnell, you asked to speak
to me.

Darnell holding up some papers to the Crew member.

DARNELL
Take these to the wireless operator and
have them transmitted immediately

before close down.

Crew member takes papers and leaves.

DARNELL (CONT'D)

No captain I wanted to ask you if you wanted a drink, I have opened a fine bottle of Whisky. Please join me in the official opening of my new world office.

Darnell walks over to a set of glass doors and walks out onto private deck area of the yacht.

DISSOLVE TO:

INT./EXT. OUTSIDE ON A PRIVATE DECK OF THE STATEROOM

Darnell and the Captain sitting down facing out to see outside under the stars. Bright stars burn in the sky, the Milky Way arches across the sky and shooting stars race across the sky.

DARNELL

So Captain how are you enjoying my new toy?

BLACKWELL

Good to get a few days running under her belt to find all the leaking pipes, yes we will have the bragging rights in Newport tomorrow night. Full crew waiting to board and take on passengers as invited.

DARNELL

I think I could run my empire from this ship with my office here to watch the stars above and never walk on dry land again.

BLACKWELL

And change your name to Nemo, but the

weather gets rough and cold from
November in these waters as you know too
well.

DARNELL

Then we can sale to Havana for the winter
months, the wireless makes anywhere in
the world reachable, New York is in easy
range from Havana.

But why limit us to the sea?

The wireless operator can be heard tapping out a message on
buying shares in a bank, as he types shooting stars race across
the sky.

DARNELL

Give the helmsman orders to pull back on
the wheel as an airship and have us steam
to the stars above our heads.

BLACKWELL

Sorry to point out that you failed to
instruct the designers to build you a
Zeppelin. We can reach the moon in 18
months at our current speed or Jupiter
in 150 years!

More shooting stars slash the sky in a fireworks display.

BLACKWELL

I swear that telegraph attracts those
streaks and flashes like wasps to honey.

DARNELL

Then we are moving from the sea of Verne
to the imagination of Wells and
Burroughs.

BLACKWELL

Verne's got to the moon first.

DARNELL

So you think captain that the lights in

the sky are messages and warning from the gods.

BLACKWELL

All I will say Mr Darnell is I have been at sea since I was 13 years old and have seen more strangeness then appears in all the novels and books of Wells, Verne, and Doyle combined.

("No one could have imagined that life on other planets existed and slowly and surly they made their plans against us".)

Each one of those dots of light is a sun just like ours, with planets just like the earth and the Bible says nothing against life on other planets.

The display of lights in the sky seems to intensify.

PERCIVAL DARNELL

Then we must hope and trust in the works of Hubble and Einstein to protect us from Martians and alien invaders.

Einstein has proven that the speed of light is sacrosanct, and Hubble proves that stars and galaxies can be hundreds of years away even if a ship can travel at the speed of light.

So let us hope the laws of physics and our bacteria keep us safe.

BLACKWELL

I shall keep reading the scientific papers just in case. But man on earth has not explored all the land and knows barely what is 10feet beneath the waves. There is still room for dragons and beasts of fancy to still exist.

I will take my leave and wish you good night.

The verdict of this court is that the crew of SS Jenny where overcome by a leak of ammonia gas from the new refrigeration plant. All the crew died below deck and only Mr Darnell sleeping above the first deck survived.

ROGER BLACKWELL

This is not true what about the.....

COURT JUDGE

The court has reviewed all the evidence and no other conclusion can be made. Unfortunately, Mr Darnell can remember nothing of the events after he went to sleep.

Court room scuffles as Roger Blackwell is removed from the room.

COURT JUDGE

Let the record show that the Captain and crew where without blame for the incident and our sympathies are with the families of the men. We also note the generous contribution made by Mr Darnell to support the families of his crew.

EXT. COFFEE IN THE PARK WHERE TWO STRANGERS MEETS (PRESENT TIME 15 YEARS BEFORE). - MID MORNING BRIGHT SUNSHINE, A PERFECT DAY

Dr Matt is sitting at an outside table enjoying a cup of coffee, he is drawing a butterfly on his computer tablet, extremely good artist.

HELEN THORPE

Excuse me is anybody sitting here?

Helen is eloquently dressed allowing her professional dancer long legs to be seen, finished in flat training shoes.

DR DAVID MATT
No.... feel free.

The butterfly floats away and David starts to absentmindedly sketch the next object of beauty before his eyes.

Sometime later.

HELEN THORPE
Are you drawing me?

Helen is looking at her face on David tablet, David jumps up onto his feet and steps onto Helen foot. Table, chair and Helen end up on the floor with crash, bags and screams.

HELEN THORPE
Screams out in pain!

DR DAVID MATT
Sorry, please let me have a look at that foot?

HELEN THORPE
Its ok it sometimes happens.

DR DAVID MATT
I am a Doctor and that pain is not normal.

David quickly grabs Helen's left foot.

HELEN THORPE
Shouts out in pain, PLEASE stop.

Two police officers having coffee walk over to take a look at the commotion.

DR DAVID MATT
This foot is infected I can smell it, I really must have a look at it.

OFFICER 1
Are you OK madame?

DR DAVID MATT
No, she is not, she needs to go to

hospital for medical treatment.

David hands over his medical ID to the police officer who taps it on his tablet.

HELEN THORPE

I am OK, I don't need to go to the hospital. I am fine, honest.

Helen gets up from the chair and attempts to walk but immediately collapses in criers, pain and sits back down.

OFFICER 2

Look take the Dr's advice; we can call a transporter to collect you and the Doctor.

HELEN THORPE

OK OK

OFFICER 2

Can I have your ID, I need it for the report.

Helen hands over her phone and the officer taps it on their tablet.

OFFICER 1 (INTO RADIO)

Dispatch can we have a transporter let into the park, medical pickup at my location.

DR DAVID MATT

Good, my name is David, Dr David Matt.

Holds out his hand to Helen

HELEN THORPE

Helen Thorpe pleased to meet you.

OFFICER 2

Just tap the transporter with your ID Doc when it arrives. Ms Thorpe we will be monitoring your safety all the way.

DISSOLVE TO:

EXT. GETTING OUT THE TRANSPORTER INTO THE HOSPITAL VIA THE DOCTORS ENTRANCE.

David calls over a robotic wheelchair for Helen to use and they head for a side door to the ER. David taps his ID at the door.

DR DAVID MATT

DISSOLVE TO:

INT. ENTRANCE FOR THE DR AND NURSES TO ER.

DUTY STAFF NURSE/LISA
Dr Matt we have enough patients waiting without you bringing your own in today and didn't you finish your shift 3 hours ago.

DR DAVID MATT
Lisa any treatment rooms free?

DUTY STAFF NURSE
Room 9

David and Helen head for the lift.

DUTY STAFF NURSE
(on private comms)
Hey Patricia Dr Matt, is bringing up the prettiest young lady you did ever see, better get security to room 9 and put all the single nurses on suicide watch.

Lisa points coms at Helen so video can be seen by Patricia.

PATRICIA PARKS
(on private comms)
That young lady is Helen Thorpe, her and rich boyfriend have been all over the social news casts.

DUTY STAFF NURSE (ON PRIVATE COMS)
You know I don't look at that trash but tell me more.

DISSOLVE TO:

INT. DR MATT AND HELEN THORPE IN THE TREATMENT ROOM.

Helen is on treatment table. Robot nurse is getting implements ready while a second fills a bowl of hot water. Patrica comes in with tablet ready.

PATRICIA PARKS

I got the police report, Helen Thorpe,
27, Los Angeles CA, occupation Lead
Ballerina, single.

HELEN THORPE

Yes,yes,yes,yes and definitely yes.

Fixed Look at Patrica.

PATRICIA PARKS

Please put your fingerprint here to
close the police tracking.

DR DAVID MATT

You need to take 2 of these tablets 3
times a day for the next 3 days. Patrica
here will now GO and gets us both a cup
of coffee.

Patrica leaves with a big smile on her face.

DR DAVID MATT

The skin infection on your foot needs to
heal, if not it is going to require a skin
graft. But your real issue is the nerve
getting trapped in your foot.

David takes a thin wand from his top jacket pocket and sets it
to level 3 and points it at Helen's foot. Helen gasps in pain.(a
tool that will save his life later)

HELEN THORPE

Arh...

DR DAVID MATT

This needs a minor operation soon as you
risk having a permanently damaged nerve.

HELEN THORPE

I have one more performance tomorrow
night, can I survive that?

DR DAVID MATT

I said soon, but I wouldn't leave it long if you want to continue dancing. I heard of ballerina's feet and now I know what they mean by suffering for your art.

Dr Mathews enters the treatment room.

DR MATHEWS

Patrica said you and your girlfriend where in here.

DR DAVID MATT

Yes, remind me to have a word with Patricia.

DR MATHEWS

Professor Martins contacted me to see if I knew a recently qualified surgeon who was looking for a job? I gave him your name and I expect you to take up the offer. If your girlfriend is a Ballerina, you should think of specializing in orthopaedics' while your there.

Dr Mathews leaves the room and the robot continues treating Helen's foot.

HELEN THORPE

Patrica was correct in one respect, I appear to have a spare ticket to the last performance tomorrow night and the after-show party, I would be grateful if you would be my guest.

Patrica enters the room with 2 coffees and quickly gets into profession mode.

PATRICIA PARKS

Dr Mathews needs your god like skills in surgery NOW, 13-year-old kid rode his motor bike into a tree, already died twice in the air ambulance. GO GO! I will look after Ms Thorpe.

David leaves the room.

PATRICIA PARKS

Sorry for my remarks earlier I have a big mouth.

HELEN THORPE

I should have dumped that ass hole pretence of a boyfriend months ago.

Helen smiles.

HELEN THORPE

Is David a good surgeon?

PATRICIA PARKS

With Dr Mathews and David running the surgical teams the boy will walk out of the hospital on his own two feet.

DISSOLVE TO:

INT. SURGICAL ROOM.

Dr Matt is standing next the patient and other nurses and medical robots are working.

DR HUB

Ok David the cavalry has arrived, 4 hours is a long enough at the table.

DR DAVID MATT

Patient hasn't died in 147 minutes and the blood bank is no longer answering our calls. I was going to start on stabilizing the pelvis next.

David stands aside.

DR DAVID MATT

James I am ready to hand over.

Dr James and a robot are working inside the teenager's skull.

DR JAMES

Hand over and thanks for keeping the kid

alive this long.

DR HUB

David don't forget to pick your girlfriend up from the staff lounge, she is asleep on a sofa.

DISSOLVE TO:

INT. INSIDE THE DOCTORS REST LOUNGE

Helen is asleep on a corner sofa; someone has covered her in a blanket. David wakes Helen up.

DR DAVID MATT

What are you still doing here?

HELEN THORPE

You forgot to take the tickets.

DR DAVID MATT

Thank you but you could have left them with Patrica.

HELEN THORPE

Sounds stupid but I wanted to thank you in person and made sure you got them.

DR DAVID MATT

Well its 12am in the morning do you want to go for dinner, doctors know all the best restaurants open this time of night.

HELEN THORPE

Yes, why not.

INT. COFFEE IN THE HOSPITAL COFFEE SHOP - 7 YEARS LATER

DR MATT IS SITTING DOWN ENJOYING A CUP OF COFFEE, Dr Lisa Johnson
joins him.

DR LISA JOHNSON

We don't see you in here on a morning,
you are usually up to your elbows in a
patient.

DR DAVID MATT

Just killing some time before an
appointment.

DR LISA JOHNSON

Thought you were spying on your wife and
mistress over there hiding in the
corner.

DR DAVID MATT

What!

DR LISA JOHNSON

Over there in the corner, Patrica and Linda, your Wife and Mistress, sorting your schedule out between them for the week.

DR DAVID MATT

I still don't understand, what?

DR LISA JOHNSON

It's what they call themselves, if anybody wants to see you about medical matters, they see Patrica the "Wife", if its an academic issue you see the "Mistress", Linda. Didn't you know?

They meet here once a week to sort out your diary, meetings and appointments between themselves.

DR DAVID MATT

So, any other secrets I don't know about?

DR LISA JOHNSON

Your nick name is Dr Slow Motion, Slow Mo for short! Steven frequently puts a monitor on you in surgery, your pulse rate never climbs above 75 and your respiration is always 12. Your Brain waves and blood pressure look like you are walking in a park!

DR DAVID MATT

Dr Steven must get bored watching my patient sleep for 8 hours while I operate!

DR LISA JOHNSON

Samantha wants to see you, rumour has its George is leaving for a Washington job.

DR DAVID MATT

Oh Shit!

DR LISA JOHNSON

...and you are favourite to fill his empty space at the boardroom table.

DR DAVID MATT

Time to choose between the Wife and the Mistress I suppose.

Dr Lisa Johnson smiles.

DR DAVID MATT

...and you will be my recommendation to fill my empty chair as head of medical services.

DR LISA JOHNSON

Oh Shit, didn't think of that!

DR DAVID MATT

You can have my "Ex-Wife" to run your life as she does mine. Time to upgrade Mistress 1.0 to Wife 2.0.

DR LISA JOHNSON

So that leaves you a vacancy to fill for mistress 2.0.

DR DAVID MATT

I wish, definitely need to get out the office more and see what's going on in the real world.

DR LISA JOHNSON

Sounds like you are hitting a midlife crisis.

DR DAVID MATT

Suppose its viewing people from the inside out all the time. It would make a change to see people fully enclosed with all their skin on for a change.

DISSOLVE TO:

INT./EXT. DARNELL FOUNDATION

Dr Matt seen entering a fashionable office block and walking to the reception desk.

DR DAVID MATT

Hello, I am Dr David Matt I have a meeting
with the Darnell Foundation
representative.

RECEPTIONIST

I will take you straight up Dr Matt.

Large open plan office where several desks are arranged, and various people are sitting at desk talking.

Irene is wearing an expensive business suit, very short skirt, high heel, stockings tops are hinted at, tight fitting jacket, large areas of breast can be easily seen.

The Receptionist points to one desk occupied by an Air Force Lieutenant Colonel been interviewed by a young woman.

RECEPTIONIST

Irene will see to you when she is
finished with the Colonel, sorry for the
delay.

The AF Col is noticeably looking down at his feet as Irene has a lot of flesh on display.

Dr Matt takes the designated chair, takes out his tablet and starts drawing from memory.

Sometime later.

IRENE DARNELL

Dr David Matt, sorry to keep you waiting.

David eyes start at the feet, 10000 dollar high heel shoes,
500 dollar silk stockings,
30000 dollar silk suit,

perfect teeth, brilliant smile, minimum make up,
 crystal clear eyes, long vibrant hair,
 David has made his visual examination of Irene a bit obvious.

IRENE DARNELL
 Everything to your satisfaction.

Irene stands up straight and offers a left and right pose, one hand on hip.

DR DAVID MATT
 Sorry, I was checking reality against my
 memory of you Ms Darnell.

Irene looks at Dr Matt, puzzled.

DR DAVID MATT
 We just about met last week.

David hands over his tablet with the drawing of Irene in an awfully expensive, simple but very revealing evening dress, the sort of dress the more you pay the less material you get. Side view of Irene leaning forward shows her for all intended purposes naked.

His drawing of her on the tablet is near Photo Perfect.

IRENE DARNELL
 You have a good eye and hand for drawing
 all my details Dr Matt. Not just a
 medical viewpoint?

DR DAVID MATT
 An artist draws with his brain and not
 with his hands.

IRENE DARNELL
 Michelangelo.

DR DAVID MATT
 It would be an insult not to think about
 the subject while you are drawing. I once
 made that mistake.

IRENE DARNELL

What happened?

DR DAVID MATT

I married her.

Irene spends several seconds rotating the drawing and zooming in and out of the picture.

IRENE DARNELL

The mayors Charity Dinner, by the look of the dress I am almost wearing.

Holding the drawing up for view.

DR DAVID MATT

Sorry it's how I remembered it, someone put the idea in my mind this morning of viewing people with their skin on today.

IRENE DARNELL

So, the site of my naked skin made a lasting impression you?

DR DAVID MATT

No artist could resist drawing a picture of you. I can draw more of the dress.....

IRENE DARNELL

What do you prefer to see and draw, my bare skin or the dress?

DR DAVID MATT

Do I prefer to draw you naked or clothed?

IRENE DARNELL

and?

DR DAVID MATT

It doesn't matter what I think, its on how you decide to present yourself to be drawn.

IRENE DARNELL

A very bland diplomatic answer and how do you think I am dressed today?

Irene straightens her skirt and jacket.

DR DAVID MATT
Perfectly dressed for the occasion!

Irene goes back to the drawing for a few seconds more and appears to come to conclusion.

IRENE DARNELL
Was that air force colonel embarrassed
with my attire?

DR DAVID MATT
I don't think the air force academy
teaches breast avoidance techniques in
its standard training.

IRENE DARNELL
You don't seem to have a problem with
viewing all my skin?

DR DAVID MATT
I am a surgeon; I can handle breasts all
day.

IRENE DARNELL
Can I have a copy, and would you like to
go for a coffee and we can talk some more?

Irene taps her mobile onto David's tablet.

DISSOLVE TO:

EXT. DAVID AND IRENE WALK AS A COUPLE IN THE STREET.

David is been guided by Irene with her arm under his as they walk
along the street.

DR DAVID MATT
So does my knowing your family
background negate the reason you wanted
to interview me.

IRENE DARNELL
Not for Interview A, but there is now
Interview B, I would like you to

consider?

DR DAVID MATT

What was Interview A?

IRENE DARNELL

Interview A is for you to fly into outer space for 3 years to research on how to prevent bone degeneration in a zero-gravity environment on return flights to Mars.

Irene looks at David.

IRENE DARNELL

Do you think people looking at us would think we are a distinguished father walking with his beautiful daughter?

DR DAVID MATT

Reality dictates, rich older man and expensive mistress.

IRENE DARNELL

You completed our questionnaire as currently single?

DR DAVID MATT

I don't seem to have much luck with wives and girlfriends. My job and running a 250-year-old opera house sadly leave no room for a full time relationship.

IRENE DARNELL

Would I interest you more as a girlfriend compared to an Old Opera House?

DR DAVID MATT

I could not afford your taste in shoes.

Irene points the way to the coffee shop.

DISSOLVE TO:

INT. COFFEE AND SEDUCTION.

Irene and David sitting in a coffee shop is a quiet corner face to face.

The video cameras slowly point away leaving the couple in private. Noted by David.

IRENE DARNELL

My apologies for the 2-million-dollar donation to the Opera House Charity, I didn't connect your full involvement or put all the right pieces together till just now.

DR DAVID MATT

Why do you think you need to apologize for such a generous donation?

IRENE DARNELL

I am sorry to say 2 million is one of our standard automatic response if a charity meets our pre-programmed criteria, no human intervention involved.

DR DAVID MATT

The 2 million allowed the stage floor to be re-surfaced and repaired for tonight's Gala Performance.

IRENE DARNELL

I can make another 2 million donation if you take me to the performance tonight, all the tickets seem to be sold out at "your Old Opera House".

DR DAVID MATT

I can't imagine you having difficulties in obtaining tickets or a willing volunteer to take you anywhere you really wanted to go.

IRENE DARNELL

You would be surprised at the difficulties of been a pretty, intelligent, rich, educate young lady who just happens to be part of one of the most powerful families in America.

Irene fixes David in her eyes.

IRENE DARNELL

Dr David Matt, 48,

Graduated High School at 15,

Cal-Tec for a Maths Degree, John Hopkins Medical
School at 18,

Only 2nd in class?

DR DAVID MATT

I didn't revise for the finales!

IRENE DARNELL

IQ same as mine,

one of the finest surgeons in the country,

owner of a successful sports injury clinic,

chief medical officer in a large teaching hospital,

academic superintendent in the same university,

amateur chess player to masters level,

chairman of a fine arts charity, artist whose work
on human anatomy is regularly exhibited and in your
spare time teaching yourself how to play the piano.

DR DAVID MATT

I was gifted an expensive grand piano,
shame to waste it.

IRENE DARNELL

The advantage of you filling out our
questionnaire before our meeting, I know
a lot about you as data.

But data in the real world is different
from that on a computer screen and many
questions we don't ask. For example, do
you object to a rich powerful man buying
the affections of a woman half his age?

Again Irene flashes a killer smile.

DR DAVID MATT

Or by reverse a young rich woman buying
the attention of a man twice her age.

Irene looks up then back at David.

IRENE DARNELL

I find it saves time, energy, effort and
disappointment!

Irene has a calculating edge to her voice now.

IRENE DARNELL

Or do you prefer the countless stream of
young nurses throwing themselves at you
to satisfy your passions?

Irene is in hunter mode.

IRENE DARNELL (CONT'D)

The offer on the table now is 4 million
dollars to take me to the theatre
tonight?

David is clearly thinking, what could be on his mind.

IRENE DARNELL (CONT'D)

Why the reluctance to take me to see
Clora Muller dance at your Opera house,
you have seen her dance many times there.

Irene looks at David, soulfully.

IRENE DARNELL (CONT'D)

Or is it me you object too?

DR DAVID MATT

Make it 6 million dollars and you have
a deal; the stage curtains need
replacing. It's not my Opera house, I
just pay the mortgage and running costs.

Irene has caught her prey, now only playing with it till the final bite to the neck.

IRENE DARNELL

Done and I would have gone to 12 million,
you sold yourself cheap.

Irene switches to sweet and playful kitten in killer mouse mode.

IRENE DARNELL

For your future reference I provide my
own shoes, clothes, cars, apartments,
private jets, jewellery and in fact have
very low maintenance costs, compared to
your Opera House I should imagine.

Irene flashes a smile, she hasn't finished playing yet, like a cat with a trapped mouse.

Irene leans forward with the intent of revealing her breasts more to David.

IRENE DARNELL (CONT'D)

Just checking, do these need surgeries?

DR DAVID MATT

All I will say is that they appear to be
natural and not enhanced by any surgical
procedures that I am aware exist.

Irene sits back to look again in David's eyes. Reaches forward and picks up David's hand and feels his pulse.

IRENE DARNELL

You are been too D I P L O M A T I C again
today. So, they are perfect in you
medical opinion, but what about on a
basic human male level?

Irene pulls David other hand towards and inside her jacket to cradle her breast, same time feeling David's pulse. Holding his hand against her breast for a long-time counting David's pulse and then release both of his hands.

IRENE DARNELL

I am impressed.

Irene sits back in the chair.

DR DAVID MATT

Tonight, on one condition, I provide
your dress for the performance.

IRENE DARNELL

But of course, I look forward to seeing
how you dress a Barbie doll for the opera
house!

DISSOLVE TO:

INT./EXT. DAVID MATT ENTERS IRENE'S 1930 ART DECO APARTMENT.

The apartment belonged to Elizabeth Hale and hasn't changed much
since the 1930s, she could have just walked out the door.

David enters the apartment dressed in classic black DJ and white
scarf around his neck.

The old apartment is in 20/30 style Art Deco and has numerous
paintings/statues (mostly nudes) of Elizabeth Hale/Darnell.

Irene already has her hair up, makeup jewellery done, wearing
a short silk rap revealing black stocking tops and ridiculous
high heel shoes. (everything in black)

IRENE DARNELL

I like a man who is punctual and matches
the decor!

DR DAVID MATT

One advantage of running an Opera House
it comes complete with a costume
department!

David hands over a small box tied with a ribbon.

DR DAVID MATT

Your dress as promised in our agreement.

IRENE DARNELL

Well I hope it fits, champagne is over
on the table please pour us both a glass
while I change.

By the table/champagne is an oil painting of a naked Elizabeth. David has his back to Irene as he pours the drinks and turns around to find she has dropped the silk rap to be naked (apart from hold up stockings) hanging onto a life size nude statue of Elizabeth as "Naked Greek Woman in Chains".

IRENE DARNELL

Can you spot the family resemblances, in our details? What do you think?

DR DAVID MATT

If you can authenticate the signature on the leg as Gertrude Vanderbilt, I would say about 250million at auction

. I am sure that nude painting is by Edward Hopper!

IRENE DARNELL

The Picasso is in the bathroom, not one of her favourite portraits, she said he made her look like a square hippopotamus in green and blue paint.

DR DAVID MATT

I can't imagine a beautiful woman saying that of Picasso.

IRENE DARNELL

Elizabeth was a rich and powerful businesswoman long before she married my great grandfather. Cornell University founded a National Sorority House for women students, her own charity foundation and a publishing house.

Irene points to the only painting of Elizabeth fully clothed standing outside a Sorority House.

SHOT: MUST SHOW GREEK LETTERS AS THESE WILL BE WORN BY KEY CHARACTERS LATER.

DR DAVID MATT

Then found fame, more fortune and a billionaire husband by taking her clothes off for men.

IRENE DARNELL

Not just for men, Great Grandma was very avant-garde in her attitudes. I have all her old love letters, remarkably interesting reading!

Irene smiles knowingly and steps into the dress.

IRENE DARNELL

How did you get my measurements, anyway?

DR DAVID MATT

I drew you out on paper for the extraordinarily talented dress maker, didn't take her long to stitch a few bits of silk together. It takes skill to cover so much skin with so little material.

It's a simple silk full length slip dress in silver with feather edging, long leg slit, low frontage. Irene steps into the dress and examines herself in a wall mirror.

IRENE DARNELL

Perfect fit, well done.

David is eyeing a full naked picture of Elizabeth plus a few feathers!

DR DAVID MATT

I can see the family resemblance in the paintings.

IRENE DARNELL

Yes, you have a fine eye for our details.

Irene smiles

IRENE DARNELL

Don't I shock you?

DR DAVID MATT

If I get shocked easily my patients die on the table.

IRENE DARNELL

Maybe you can draw me later to add to the artwork here. My Great Grandmother Elizabeth was only politely called a

music hall dancer.

David examines with his hands the full-size nude model of Elizabeth.

DR DAVID MATT

You really do take after Elizabeth in every detail possible.

IRENE DARNELL

I have the collection of her "dancing" costumes before she married if you would like me to model them for a private performance later tonight?

DR DAVID MATT

Burlesque never got the accolade it deserved.

IRENE DARNELL

I assumed you wanted me to wear more cloth tonight!

DR DAVID MATT

That would have been like trying to tell the sun not to shine.

IRENE DARNELL

I will try to keep half dressed for the evening; I promise you.

DR DAVID MATT

Time, we left for the theatre.

Irene is waiting at the door holding up a pair of flimsy knickers and wicked grin on her face.

IRENE DARNELL

Do I need to wear these?

here, you may want to have a look, you
definitely have to come and look, you
absolutely have to come and look NOW.

PROF CAMPBELL NEOO
None of these are on the PHA data base,
someone get me a piece of graph paper.

ANOTHER MONITOR TURNS YELLOW.

Prof Campbell starts plotting points on the paper, Jane reaches over and takes the paper.

Prof Campbell taps his tablet.

PROF CAMPBELL NEOO
I have just called in a level 3 event.
In 20 minutes, every available telescope
on earth, moon and space will be on this!

JANE NEOO STUDENT
Better call everybody and get them out
of bed!

KEVIN NEOO STUDENT
I will use my recent extensive training

PROF CAMPBELL NEOO
We are going to need a lot of fucking
coffee tonight!

Prof Campbell's tablet rings.

PENTAGON VOICE (FROM TABLET)
Is this Professor Campbell?

PROF CAMPBELL NEOO
Yes, it is.

Slight pause.

KENWAY 4 STAR AIRFORCE (OFF SCREEN)
Hello again Professor, can you confirm
your PHA data sets for me.

PROF CAMPBELL NEOO
Yes General, we have 5 new PHA,
originating from outside the solar
system.

KENWAY 4 STAR AIRFORCE (OFF SCREEN)
Is it a single point of origin?

JANE NEOO STUDENT
Betelgeuse is near enough for now!

PROF CAMPBELL NEOO
All five have high probability of earth
impact, we will know more once we get
more observations.

KENWAY 4 STAR AIRFORCE (OFF SCREEN)
Anything that we should worry about?

PROF CAMPBELL NEOO
Number 4 has "goodbye dinosaurs" written
all over it, 48000mph a real KPg2!

KENWAY 4 STAR AIRFORCE (OFF SCREEN)
ETA?

PROF CAMPBELL NEOO
Currently 5 years, 4 months, 7 days!

KENWAY 4 STAR AIRFORCE (OFF SCREEN)
We are not the dinosaurs; we have the
intelligence to defend ourselves.

Get your bags packed we will be picking you up to
fly to Washington and brief the POTUS in person.

Thanks to Carlson we can have 100 high speed defectors on there way within weeks. The smaller asteroids we just vaporizer, 20 megaton warheads should do the trick.

Call ends.

KEVIN NEOO STUDENT

The Pentagon where quick off the mark!

JANE NEOO STUDENT

Professor, those asteroids have been "directed" at earth, no way their course and impact is a random occurrence.

KEVIN NEOO STUDENT

Professor 5 asteroids heading for earth...

JANE NEOO STUDENT

7!

KEVIN NEOO STUDENT

7 asteroids to be spaced out in such a way they all could hit the earth....

JANE NEOO STUDENT

One is an accident, 7 is a mathematical certainty of alien intelligence, this is an hostile act.

PROF CAMPBELL NEOO

Jane get your bags packed you are coming with me to Washington, I need you to crunch the numbers and you also just qualified for you PhD!

KEVIN NEOO STUDENT

Lucky you.

PROF CAMPBELL NEOO

Don't worry Kevin your PhD is also in the mail, I need you here to collect all the data sets so Jane can crunch the numbers in Washington. I met the President once and believed Carlson was insane or simply a mad man!

KEVIN NEOO STUDENT

Now he will go down in history as the man
who saved the world.

DISSOLVE TO:

INT. THE AFTER-PERFORMANCE PARTY.

Clora Muller is hugging a kissing David, surrounded by a party
crowd.

CLORA MULLER

I didn't think you would come tonight.

Irene looks supersized by this apparent joy in Clora and sadness
in David.

IRENE DARNELL

Why would you not come to see Clora
dance, as I asked you before. You have
known her for many years.

CLORA MULLER

But never seen me dance in Swan Lake, the
first and last dance David saw Helen
perform.

IRENE DARNELL

So why tonight, my 6 million dollars?

DR DAVID MATT

Maybe someone pointed out I needed to get
out the office more often and see the
world.

David looks long and hard at Clora.

DR DAVID MATT
 Helena would have enjoyed your
 performance tonight.

David kisses Clora, turns to Irene and they leave Clora to accept
 the plaudits of other guests.

DR DAVID MATT (CONT'D)
 Lets slip out quietly please.

IRENE DARNELL
 Only if you take me home for drinks.

DR DAVID MATT
 S u r e. Why not. (David looks like a man
 drowning in emotions)

Irene grabs David's arm and leads him as they walk out the party
 only to be photographed unnoticed by a drone.

DISSOLVE TO:

INT. DR DAVID MATT APARTMENT.

David lives in what would be described as a grand large, split
 level apartment.

As the couple enter the door they are greeted by a full size
 ballerina (Helen) on point one leg through a glass table top,
 balanced on 2 glass columns for the outstretched leg and arm.

Two 4 armed Honeywell robots meet them and take their coats.

IRENE DARNELL
 I was thinking my place, I had the
 champagne on ice and the feather boa
 ready.

DR DAVID MATT
 Sorry I wasn't thinking straight, my
 auto pilot drove us to my home.

IRENE DARNELL
 This statue is in the Ballet School
 entrance.

DR DAVID MATT

I drew this after I first watched Helen dance. A sculptor had it printed in 3D full size for the college entrance. I got the first test print as a thank you.

Irene enters the apartment and looks around.

IRENE DARNELL

I am impressed.

Several robots can be seen performing tasks, playing cards, magic tricks, drawing pencil pictures and combing a cat.

DR DAVID MATT

Well I took the advice of Helen and when I opened the Injury Clinic part of my fee is a residual payment on future income earned. One of my NBA All Stars just signed a contract for 750 million which I receive a good but small percentage. One Baseball player last year earned me on average 37 thousand a game.

IRENE DARNELL

I smart financial move.

DR DAVID MATT

It was a comment Helen made when she told me she was retiring from performing on stage, she would make more money off stage then on it. She had just watched Clara's first leading performance and know it was time to go.

IRENE DARNELL

I am now jealous of you, I am on the waiting list for one of these, me on a w a I t I n g list!

Irene walks over to a glass grand piano and starts to play some heavy cords.

DR DAVID MATT

Something lighter.

Irene starts to play Moonlight Sonata, David places I glass of champagne on the piano.

DR DAVID MATT
As Requested.

David turns to the robot combing the cat.

DR DAVID MATT (CONT'D)
Voice activation, factory re-set, piano
playing mode, take over Moonlight
Sonata.

The robot takes Irene place at the piano and continues playing
without missing a note.

DR DAVID MATT (CONT'D)
A present from a grateful music
management company as one of their young
idols wanted to prove his manhood in a
bar fight. Ended with a smashed-up face,
and several broken bones in his hand,
which I operated on and apparently saved
their musical career.

IRENE DARNELL
The robots?

DR DAVID MATT
Its a joint project with the company to
improve their surgical skills by copying
and recording my hand action.

David puts on a pair of AR gloves and glasses. A robot approaches
Irene holding a pack of what appears to be ordinary magical
cards. David starts to move his hands and the robot follows his
actions.

The robot holds the pack face down in front of Irene with one
hand and taps the top card with another hand. The top card turns
over in an instance to show the Grim Reaper/Death himself. The
robot taps the cards again and the card disappears.

IRENE DARNELL
Tarot Cards?

DR DAVID MATT
Any magician can use playing cards,
magic should be more mystical, it puts
the audience on edge using Tarot cards.

The robot hands snuffle the pack, fans the cards and offers them to Irene face down.

DR DAVID MATT
Pick a card.

Irene takes a card, glimpses at it and quickly holds it to her chest and smiles broadly.

DR DAVID MATT (CONT'D)
Place it back in the pack anywhere you wish.

Irene does as she is asked.

The robot hands snuffle the pack and hold the cards up. With a free hand it taps the pack and single card rises face up.

The robot takes the card and holds it up for Irene to see fully.

DR DAVID MATT (CONT'D)
Is this your card?

IRENE DARNELL
I hope it is.

David moves his hands, so the robot shows him the face of the card.

"Raphael" is shown.

Irene slips the straps of her dress over her shoulders, so it falls to the floor. Walks over to David, takes one hand to her breast and checks David's pulse with the other.

IRENE DARNELL

IRENE DARNELL

and maybe we are in line for the next Presidential Library.

DISSOLVE TO:

INT. MEET THE PRESIDENT IN DAVIDS OFFICE

David meets the President and talks about his back injury. Many obvious SS Agents in and around David's office

LISA(ON INTERCOM)

David your 10 am appointment has arrived and its not just Dr Henry.

President enters with 2 SS Agents; agents check the office and leave.

PRESIDENT CARLSON

Good morning Dr Matt, sorry for the smoke and mirrors trickery, but my security

team insist on it.

DR DAVID MATT
Mr President what can I do for you?

PRESIDENT CARLSON
I am here to discuss my Presidential Library.

DR DAVID MATT
The real reason?

PRESIDENT CARLSON
Have a look for yourself. But you are getting my Library with a generous donation from the Darnell foundation.

Hands over a tablet and David examines the 3D pictures of damaged spine and neck vertebrates.

DR DAVID MATT
The numbness in you left arm must be lasting longer and a more frequent occurrence.

PRESIDENT CARLSON
A souvenir from an ejection from a F25.

DR DAVID MATT
I can operate as soon as you want....

PRESIDENT CARLSON
Not while I am still President, it will have to wait, can't spend 12 weeks stuck in traction.

DR DAVID MATT
One hard fall could leave you in a wheelchair, if you are lucky. A serious fall could leave you unable to move from the neck down.

David takes a wand like device from his top jacket (it has be seen before) and waves it at the Presidents back.

PRESIDENT CARLSON
Gasps in Pain! My God Man.....

DR DAVID MATT

As a matter of urgency, you need to have surgery Mr President.

PRESIDENT CARLSON

I can't take time away from THE OFFICE, not at this time, I am the PRESIDENT.

David examines the tablet and 3D pictures again.

DR DAVID MATT

I can do a minor procedure and fuse three vertebrae together and release the pressure on the trapped nerves.

PRESIDENT CARLSON

But I will be under anaesthetics, I can't be unconscious for any length of time, I AM THE PRESIDENT!

DR DAVID MATT

It can be done with a local anaesthetic, you will be conscious the whole time, some discomfort only. You can even be on your feet in a couple of days and playing golf in a month.

PRESIDENT CARLSON

Only problem doctor, I don't play golf!

DR DAVID MATT

We can use my private clinic, the secret service has been there several times in the last few years, last time was when I operated on Vice President Rosenberg.

PRESIDENT CARLSON

I know!

DR DAVID MATT

The procedure will limit the movement of your neck.

PRESIDENT CARLSON

A small price to pay, make the arrangements!

DR DAVID MATT

I will need to make a detailed examination myself before I can operate.

PRESIDENT CARLSON

I will make the arrangements, keep them to yourself, tell no one of this and I mean no one, is that clear.

DR DAVID MATT

Yes Mr President.

PRESIDENT CARLSON

Tell no one of this, and I mean no one, matter of national security.

DISSOLVE TO:

INT. HOSPITAL CORRIDOR OUTSIDE PRE NATAL-ROOM AS DAVID AND IRENE LEAVE.

Irene has a baby bump.

DR LISA JOHNSON

David I was hoping to catch you both, wanted to introduce the new Head of Maternity and Human Reproduction Services. This is Dr Susan Carpenter who has just joined us.

David looks confused and Irene looks happy.

DR SUSAN CARPENTER (WEATHER GIRLS SISTER)

Yes my sister is Sarah the ABN Weather girl, don't worry I get that look all the time.

Dr Susan is using the Clark Kent method of disguise, but apart from the big glasses and tight hair bun is identical in appearance to Sarah ABN Weathergirl.

DR DAVID MATT

My apologizes and welcome to the hospital, please come to my office for a chat sometime soon and we.....

Susan and Irene hug each other.

IRENE DARNELL

Susan what are you doing here.

DR SUSAN CARPENTER (WEATHER GIRLS
SISTER)

My new job, congratulations looks like
you will be one of my first patients.

Irene turns to David.

IRENE DARNELL

I went to college with Sarah while she
studied for her PhD in Fluid Dynamics,
she was always stealing my boyfriends!

DR SUSAN CARPENTER (WEATHER GIRLS
SISTER)

The way Sarah tells it, it was you
stealing her boyfriends!

Susan and Irene walk off by the corridor arm in arm talking.

DR LISA JOHNSON

Don't let the weathergirl looks fool
you, Susan's qualifications and
employment record are outstanding.

DR DAVID MATT

We do seem to be attracting some good
staff recently.

DR LISA JOHNSON

News of the Darnell Foundation
investments has everything to do with
it. Looking at the current applications
I am only qualified to sell candy on the
wards now.

DISSOLVE TO:

INT. MATERNITY ROOM AFTER IRENE HAS GIVEN BIRTH.

Susan is holding the baby.

DR SUSAN CARPENTER (WEATHER GIRLS
SISTER)

Well done Irene a healthy and beautiful

baby girl.

MIDWIFE ANN

I have taken the blood samples.

DR SUSAN CARPENTER (WEATHER GIRLS
SISTER)

I will enter them for processing.

DR SUSAN CARPENTER (WEATHER GIRLS
SISTER)

Don't hog the baby Irene I am sure the
father wants to hold the baby.

DISSOLVE TO:

INT. NURSE STATION IN MATERNITY WARD.

MIDWIFE ANN

That was the simplest delivery I have
ever done, I can really learn to hate
that woman.

DR SUSAN CARPENTER (WEATHER GIRLS
SISTER)

Irene, Why?

MIDWIFE ANN

Takes the number one bachelor in the
hospital, gymslip figure all the way
through pregnancy, no morning sickness,
no stretch marks anywhere I could see,
3 hours of painless labor and doesn't
even break into a sweat during delivery.

NURSE BELLA

So who is next on the eligible bachelor
on the list?

MIDWIFE ANN

According to Raymond its Dr John
Martinez the new cardiac surgeon.

DR SUSAN CARPENTER (WEATHER GIRLS
SISTER)

Raymond?

NURSE BELLA

Head Nurse Raymond, he is living in hope.

MIDWIFE ANN

Dr John, the football quarter back
scholarship, black leather wearing,
motorbike riding, cardiac surgeon just
waiting for the taking.

Dr Susan reaches behind the nurse's desk/station and brings out
her shoulder bag. Takes out a pair of high heels, bottle of
perfume and red lipstick. Changes flat work shoes for high heels,
hitches skirt up, unfasten 2 more buttons on shirt, adds perfume
to cleavage, puts on lipstick, removes glasses to pocket and
shakes out hair bun.

[VIEW OF SUSAN'S NECKLACE, SORORITY MEDAL [TO BE USED LATER].

DR SUSAN CARPENTER (WEATHER GIRLS
SISTER)

The cardiac department would have their
lunches in the Thames building?

NURSE BELLA

Young lady that sort of attitude is not
going to win you friends around here.

Bella smiles.

DR SUSAN CARPENTER (WEATHER GIRLS
SISTER)

Just remember, I am head of Human
Reproduction in this hospital.

MIDWIFE ANN

That is supposed to be other people's
human reproduction.

DR SUSAN CARPENTER (WEATHER GIRLS
SISTER)

I will keep you two informed on the
progress of any invasive procedures
performed by Dr Martinez.

MIDWIFE ANN

Don't forget to get a good sample
mid-stream.

Dr Susan walks off with a pronounced wiggle to her stride.

NURSE BELLA

Well if she fails to get an internal
medical examination from Dr John,
Raymond is definitely in with a chance!

DISSOLVE TO:

INT. IRENE AND LAURA LEAVING THE DAVIDS APARTMENT.

Irene is carrying Nia(4yr old) in her arms as they exit the
apartment.

NIA MATT

Mommy can I ask you a question?

IRENE DARNELL

Yes baby.

NIA MATT

My sisters want to know why you don't
want daddy.

IRENE DARNELL

You can talk to your sisters?

NIA MATT

Yes, when I hold you.

Laura points down to Irene belly.

NIA MATT

OK mommy but I also want to know why you
want to get rid of daddy?

IRENE DARNELL

Well I don't need him any more now I have
you and the twins.

NIA MATT

But we want daddy to read Dr Susus.

IRENE DARNELL

I can read to you and your sisters.

NIA MATT

You don't do the funny voices and you only read a book once.

IRENE DARNELL
We only need to read a book once.

NIA MATT
But daddy reads all my books many times and my sisters love the Cat in the Hat with the funny voices.

IRENE DARNELL
Alright we will keep daddy for now if it will make you and your sisters happy.

NIA MATT
YES we love daddy, daddy, daddy.

IRENE DARNELL
But keep your sisters a secret from daddy for now, sweetheart.

NIA MATT
You keep to many secrets from daddy already.

DISSOLVE TO:

INT. THE CAT ALARM IN THE DAVIDS/IRENE'S BEDROOM, 3AM DARKNESS.

Coco the cat runs into the bedroom and jumps onto the bed and starts mewling into DAVIDS face.

DR DAVID MATT
Coco, go away, what's the matter with you?

NIA MATT
Muffled cries,

IRENE DARNELL
Nia!

IRENE jumps up out of bed and runs out of the bedroom.

DR DAVID MATT
Lights.

Nothing happens, the room is still dark.

DR DAVID MATT
Computer, emergency lights on!

Still no response, room is still dark, DAVID pulls open his bedside draw and takes out the modern SW pistol. He moves with some military skill and definitely looks like he knows how to use a weapon.

David moves to the bedroom door and crotches down to look around the frame. Then enters the living room.

DISSOLVE TO:

INT. DAVID ENTERS THE LIVING ROOM GUN IN HAND.

David is working his way around the outside wall of the living room checking the shadows for movement.

A black clad figure with mask suddenly appears in front of David. He raises the gun and pulls the trigger!

Nothing happens.

The figure in black lands a punch to David's head and knocks him back into the room, a heavy blow then disappears into the darkness. David has blood pouring from his face and is clearly stunned by the blow, intended to kill or render David unconscious.

IRENE DARNELL
Muffled sounds of a struggle.

A black clad figure is holding Irene from behind, arm around neck.

IRENE DARNELL
Nia, HIDE!

David pulls himself up by a table leg and places his hand on the tabletop to steady himself. His finger close on a pair of glasses. He quickly put the robot VR glasses on a selects the robot he wants, tapping the side of the glasses. As he does he sees the view from the robot he is controlling. The advantage been the robots see in the dark.

Pulls on the set of VR gloves also on the table.

David selects the robot he wants, directs the robot into the bedroom, opens his bedside draw and pulls out the old-fashioned revolver. The robot hand activates the laser red dot sight as it sweeps around the room.

DAVID(POV) LOOKS WITH THE VR HEADSET SEE THE ROOM AND THE RED DOT LOOKS LIKE SEARCH LIGHT IN THE NIGHT VISION.

Irene and Nia are in the arms of the intruders been dragged towards the large outside balcony and the sound of air-car approaching.

David steps in front of the intruders.

DAVID(POV INTRUDER) IS STANDING UP POINTING HIS RIGHT HAND TOWARDS THE INTRUDERS, HIS HAND IS HOLDING AN INVISIBLE GUN.

The intruders stop, the one holding NIA hands the child over and steps towards David. David's trigger finger twitches 2 time followed by 2 loud shots ringing out.

DAVID(POV) POINTS HIS HAND/FINGER AT THE SECOND INTRUDER HOLDING IRENE/NIA. LOOKING WITH THE VR HEADSET WE SEE THE GUN POINTING AT INTRUDER 2 HEAD.

David's finger twitches 2 times again/two loud bangs.

NIA MATT

Screams!

DISSOLVE TO:

INT. DR MATT MATT APARTMENT FOLLOWING KIDNAP ATTEMPT.

Several police office in/out of uniform wondering around, ME at one of the bodies on the floor.

DETECTIVE 1

Where did you get this Dr Matt?

Holding up the 38 Special in an evidence bag.

DR DAVID MATT

It a antique, over 100 years old I have all the paper work.

DETECTIVE 2 examining the new digital pistol.

DETECTIVE 2

This gun has definitely been
deactivated, no access code, just
switched off.

The S&W Digital pistol on the table is plugged into a tablet.

DR DAVID MATT

We were told only the police and Federal
agents would be able to deactivate our
guns, this sort of makes a nonsense of
our Second Amendment Rights when
criminals can switch off your gun.

ME

No idea who these two are, no
fingerprints, DNA or facial records
coming up. Unfortunately, an
old-fashioned double tap to the head
tends to upset the facial recognition
algorithms.

ME checks his tablet again.

ME

Possible face recon record on this one
coming from South Africa 7 years ago with
an Army Training Program, its a start
anyway.

DR DAVID MATT

So these two gentlemen manage to
deactivate the building security
system, my home computer system, turn my
gun off and the police have no idea who
they are, should I be worried Detective?

DETECTIVE 1

How did you know they were in the
apartment?

DR DAVID MATT

Luckily, Coco the cat didn't come with
an off switch, she likes to sleep under
Nia's bed.

CoCo the cat had jumped onto DAVID when she was disturbed by the kidnappers.

DETECTIVE 2

How are you feeling now Ms Darnell.

IRENE DARNELL

Better after washing someone's else's
brains out of our hair.

Irene fixing DAVID with a long hard stare.

Video footage from robot of Irene holding Nia been dragged out
by an arm around her neck to the balcony door by figure in black.
Followed by 2 flashes in quick succession and a figure falling
backwards.

DISSOLVE TO:

INT. DAVID, IRENE AND INA FLY INTO MEET PRESIDENT ON HIS RANCH.

David, Irene and Nia travel in the president's air car, flying
to meet him.

DR DAVID MATT

Well this is the most secure place I can
think of at the moment.

IRENE DARNELL

I suppose.

DR DAVID MATT

We fly in for a few days while I do my
medical pre op examination, you can both
relax by the pool.

NIA MATT

I get to see the alligators.

IRENE DARNELL

From a safe distance.

DISSOLVE TO:

EXT. PRESIDENT CARLSON PRIVATE AIR STATION.

The transporter lands and taxi's into a hanger. The three get out to meet the President.

PRESIDENT CARLSON
Good to see you all, hope you had a good flight.

IRENE DARNELL
Very relaxing.

PRESIDENT CARLSON
We can take my old pickup truck to the house. Use to belong to my father.

DISSOLVE TO:

INT/EXT. INSIDE PRESIDENT CARLSON'S OLD PICKUP TRUCK.

PRESIDENT CARLSON
I have something special to show you on the way, I think you may find it interesting.

President points to a small dirt road off the main track

PRESIDENT CARLSON
I can't believe I found this on the ranch, my father must have known about it, but kept it secret.

President Carlson turns off the dirt road and appears to drive into a drainage culvert under the road.

DISSOLVE TO:

INT. HIDDEN ENTRANCE TUNNEL FOR NUCLEAR BUNKER.

Pickup parks and the group men get out with the President taking the lead.

PRESIDENT CARLSON

This was built a hundred years ago, makes
a great man cave.

DISSOLVE TO:

INT. PRESIDENT BUNKER OFFICE, WITH PRESIDENT AND DAVID, IRENE
AND NIA.

PRESIDENT CARLSON

This is my secret office.

Dr Blackwell enters the room.

PRESIDENT CARLSON

Irene, Dr Blackwell will take you and Nia
somewhere comfortable while David and I
have a chat.

DR WILLIAM BLACKWELL

I am sure I can find something to keep
you both occupied for a while. The
President has a big toy room for his
grandchildren, I am sure Nia want s to
play in the ball pool.

NIA MATT

YES....

Blackwell, Irene and Nia leave.

PRESIDENT CARLSON

Let's have a drink, no rush for today,
you are a whisky man I hear.

DR DAVID MATT

In moderation Mr President.

Presidents pours a drink into two glasses and offers one to
David.

David does his usual thing of swirling the whisky in the glass
and smelling the aroma.

PRESIDENT CARLSON

Good health!

David stands up.

Carlson is quick, opens his brief case and pulls out a digital AI pistol and points it at David's head!

DISSOLVE TO:

INT. TUNNEL AND A DOOR WAY.

Dr Blackwell leads Irene and Nia along a tunnel and to a door.

DR WILLIAM BLACKWELL
The games room is in here.

He opens the door and allows Irene and Nia to enter the total blacked out room.

DR WILLIAM BLACKWELL
In you go, let me find the light switch.

As Irene enters the room Dr Blackwell behind her reaches for the light switch.

DISSOLVE TO:

INT. BLACKED OUT GAMES ROOM, ONLY LIGHT FROM THE OPEN DOOR.

Dr Blackwell reaches for a light switch and finds an injection gun.

DR WILLIAM BLACKWELL
Bye Bye!

Fires the gun into Irene's neck. As Irene falls Dr Blackwell catches her and lowers her to the ground.

NIA MATT
DADDY DADDY DADDY!

Nia ducks under Dr Blackwell's arms and runs to get Daddy.

Two medical robots appear and load Irene on the trolley as Dr Blackwell straps her down.

DISSOLVE TO:

INT. PRESIDENT BUNKER OFFICE, WITH PRESIDENT POINTING A GUN AT DAVID'S HEAD.

Nia runs into the Presidents cave and Carlson automatically points the gun at the moving target as she enters.

This is all the distraction David needs to pull out his medical wand, set it to maximum and point it at Carlson's arm holding the gun.

The nerve stimulation is activating all the damaged nerves in Carlson's back/neck so he can't move a muscle.

PRESIDENT CARLSON
Blood chilling scream.

NIA MATT
Daddy you must come and save mommy.

David grabs Carlson's gun arm across the desk, moves the wand and then twists and pulls Carlson's wrist so the gun barrel now is pressed up against Carlson's temple.

David lets go of Carlson's wrist and pulls the wand away and down.

THE GUN FIRES.

The President falls back down into his chair DEAD.

DISSOLVE TO:

INT. MEDICAL LAB AS DR WILLIAM BLACKWELL WHEELING IRENE INTO THE LABORATORY.

As David enters the room Dr Blackwell holds a scalpel to Irene's neck.

DR WILLIAM BLACKWELL
You do know your girlfriend here is an
ALIEN and your daughter is a freak of
nature.

DR DAVID MATT
How do you know that?

David looks around and sees something familiar and puts them on, VR glasses and gloves.

DR WILLIAM BLACKWELL
It's in their DNA, let me show you a
sample.

Blackwell press the scalpel into Irene's neck and draws blood.

DR DAVID MATT
Voice activation, factory re-set,
safeties off.

DR WILLIAM BLACKWELL
How does it feel to fuck and alien and
have a half breed as a daughter? Lets
have a look inside of her and the babies,
then your daughter...

David moves his hands and the robot standing behind Dr Blackwell
reaches up and snaps his neck like a dry twig.

DISSOLVE TO:

INT. DAVID RESCUES IRENE FROM THE TABLE.

Nia rushes to grab Daddy's hand and drags him over to Irene.

NIA MATT
Mommy, Mommy, Mommy, Daddy you must save
mommy and my sisters...

David goes to mommy strapped on the surgical table.

DR DAVID MATT
Nia, I want you to do something very
important, I need you to hold mommy's
hand. Its especially important for you
to do that for me, do you understand.

NIA MATT
Yes. daddy

Nia grasps Irene's hand tightly. While David fits an oxygen mask
around Irene's face. David examines the jet injector gun and
bottle on the trolley.

DR DAVID MATT
Don't worry, you just can't move your
muscles, nothing dangerous in the

injections. I might need to put you on a ventilator, but you are going to fine.

Irene is still motionless on the table.

NIA MATT

Its ok daddy mommy understands.

DR DAVID MATT

Keep hold of mommy's hand while I go look for the medicines that will make mommy better, its important you hold mommy's hand and stay with her HERE.

NIA MATT

I'll look after mommy for you daddy.

David searches the room/cupboards and finds what he wants, medical bottle/phial and a syringe and returns to the table.

David draws a measured dose into the syringe.

DR DAVID MATT

SISTERS? Nia you said sisters?

NIA MATT

YES and they are very scared, I can hear their minds....

Nia points to Irene's stomach! David pulls a monitor attached to a nearby table and attaches a lead to Irene and views the readout, 3 Heart beats are displayed.

DR DAVID MATT

Don't worry your sisters are safe, you just saved their lives.

David holds up the syringe.

DR DAVID MATT

This would have killed them!

NIA MATT

I will tell them that!

DR DAVID MATT

How did you know your mummy was pregnant, did she tell you?

NIA MATT

NO, they told me, they like the names
Thing 1 and Thing 2 from the books you
read to me. I can hear them think to each
other.

David pumps out 3/4 of the syringe and injects what remains into
Irene's neck.

DR DAVID MATT

You can hear your sisters?

NIA MATT

I can hear them and mommy in my head if
I hold hands, sometimes other people if
I think hard and CoCo is easy, but she
only thinks about food.

David looks at Irene.

NIA MATT

Mommy's scared....

David turns and lowers his head be near Irene.

DR DAVID MATT

You and the babies are going to be fine,
I can't give you a full dose of antidote,
it will be 2 or 3 hours before you can
talk, 6 hours to move, walk again.

NIA MATT

NO Daddy, Mommy is SCARED OF YOU.

DR DAVID MATT

What is she scared of exactly?

NIA MATT

YOU! I don't understand the pictures in
mommy's head. Angry with HER and ME.

Angrier then when I painted CoCo and the robots purple.

DR DAVID MATT

I can never be angry with you; can you
hear what I am thinking?

NIA MATT

Yes if I hold your hand.

Nia now holds David's and Irene's hands.

DR DAVID MATT

Your Mother once asked me if she shocked me. What was my answer?

NIA MATT

If daddy get shocked his patients die.....I don't understand the pictures in mommy's head.

DR DAVID MATT

If daddy gets angry now, we all die.

NIA MATT

I don't like the pictures in your head.

DR DAVID MATT

Daddy is going to be terribly angry at naughty mommy later but not at you, I can never be angry with you. I need you to stay here and look after mommy and your sisters while I clean up this mess, just like the purple paint, remember.

NIA MATT

You made me sit on the stair for such a long time.

DR DAVID MATT

Now can you sit here and hold hands with mommy. I need to clean up very carefully.

NIA MATT

are you going to make mommy sit on the stair?

DR DAVID MATT

I think we have reached smacking bottoms level with mommy.

David walks away.

NIA MATT

Mommy, daddy is very mad at you by the pictures in his head. Do what CoCo does when daddy is angry with her, sleep under my bed, I will hide you!

Tears flow from Irene's eyes.

NIA MATT

Happy pictures please mommy!

David sets one of the robots to act as nurse for Irene and it loosens the straps holding Irene down. David dresses in a full body white surgical suit, over shoes, mask, gloves and walks out of the examination room carrying plastic bags and medical cleaning equipment.

INT. IRENE TIED DOWN ON SURGICAL TABLE RECOVERING FROM BEEN DRUGGED BY DR WILLIAM'S.

Irene can now speak, but not fully move. Nia has climbed up onto the table and is asleep hugging mommy.

IRENE DARNELL

I suppose you have "some" questions.

DR DAVID MATT

Who, What, Why, Where, When?

IRENE DARNELL

Irene, Human, its in my DNA, earth now....

DR DAVID MATT

What about Nia?

IRENE DARNELL

She is our daughter as simple as that.

DR DAVID MATT

She can read my mind and talk to her unborn sisters! The twins...

IRENE DARNELL

That is a surprise even to me. Looks like you have great DNA. I have one percent more DNA than you, looks like we have given Nia and the Twins just an bit extra. Only an extra 1 percent separates us from the chimpanzees.

DR DAVID MATT

Great? What does that make me a monkey in comparison!

IRENE DARNELL

I can't read minds like Nia and the twins, it's your contribution that has made them very special.

DR DAVID MATT

You were only looking for a good sperm donor then. Is this an invasion, a takeover of the planet?

IRENE DARNELL

Its a colonization, been going on millions of years. Where do you think your intelligence comes from, evolution, a bunch of monkeys just didn't decide to climb down out of the tress and walk on two legs.

Human DNA gets a boost every 2 million years or so. Looks like Nia is the next stage.

DR DAVID MATT

and your mission in all of this?

IRENE DARNELL

Find a suitable mate, have babies and possibly make the world a better place to live, does that sound alien to you.

DR DAVID MATT

That's it...

IRENE DARNELL

The alien invaders just want to have your babies. Every great colonial power has eventually got around to inter breeding with the local inhabitants, Romans, British, Spanish, and not to mention the American settlers.

Irene tries to sit up.

IRENE DARNELL

Can you help me sit up?

David quickly pulls the restraining straps tight to stop Irene getting up and moving.

DR DAVID MATT

Stay where you are.

Irene crying, hysterically.

IRENE DARNELL

David please I am sorry for all this, I beg you for Nia....

DR DAVID MATT

Just stay still and wait till this monkey gets a wheelchair for you.

IRENE DARNELL

Crying.

DISSOLVE TO:

INT. PRESIDENT BUNKER OFFICE, WITH DEAD PRESIDENT SITTING IN HIS CHAIR.

David is dressed all in surgical gear, clearing evidence. He doesn't notice Nia enter the room, dressed in the same surgical gear as him.

Nia is standing behind the President's desk reading his tablet.

NIA MATT

Is the President dead, daddy?

DR DAVID MATT

Very, now put that down and slowly come
back around here to me.

Nia is flicking the pages, full of hundreds of random text
characters.

NIA MATT

This book makes no sense!

David takes the tablet and closes the cover, it's labelled
"Presidential Codes".

NIA MATT

What's that for daddy?

DR DAVID MATT

Can you remember these pages?

NIA MATT

Easy, but why, there rubbish, no story?

DR DAVID MATT

It's very important to daddy that you
remember them exactly.

NIA MATT

OK daddy I will remember them for you.

DR DAVID MATT

Do you need to see them again?

NIA MATT

NO SILLY, I HAVE
SEEN THEM ONCE.

DR DAVID MATT

Good girl, now let's go and get mommy and
you out of here.

NIA MATT

Do you hate mommy now?

DR DAVID MATT

What do you want me to feel about mommy?

NIA MATT

I love daddy and mommy, so I want and
daddy and mommy to love each other.

DR DAVID MATT

Daddy still loves mommy, just about.

Nia take daddies hand and leads him out of the room.

NIA MATT

I don't want to put you on the naughty
stair for not loving mommy.

DISSOLVE TO:

INT./EXT. PRESIDENT CARLSON PRIVATE AIR STATION ON HIS FL...

Irene with Nia asleep on her lap are sitting in the EX-Presidents
air car.

DR DAVID MATT

Take the air-car and disappear somewhere
and stay hidden till you know its safe
to come out. I am sure you have plenty
of options!

IRENE DARNELL

Thank you, David, please forg.....

DR DAVID MATT

Just keep Nia and the twins safe, I don't
need ESP to see that you will be sliced
and diced if I can't play this hand of
poker. Later when this is all over.

Irene pull David towards her and kisses him, properly the first
time with any meaning.

IRENE DARNELL

Thank you, David...

DR DAVID MATT

Thank Nia for speaking some sense into
me.

DISSOLVE TO:

INT. DILAPIDATED CONFERENCE ROOM.

The room is decorated in the late 70s with clear signs of decay around the room. This is where some 2 star general would have continued the nuclear war come WW3. It is under lit and the American Eagle appear to be crocked on the wall.

Dr Matt is escorted into the room by a Secret Service Officer. Dr Matt is on one side of the table with the group of four sitting the opposite side of the table, no other people are in the room.

Madame Vice President, JC of Staff, Chair Int Com and an out of place AF General. Whatever is going to happen is going no further.

MADAME VICE PRESIDENT

I hope you had a pleasant rest.

DR DAVID MATT

Can we cut the pleasantries and just pass me a cup of coffee?

MVP hands over a coffee.

KENWAY 4 STAR AIRFORCE

We still can't locate your wife and daughter, where are.....

DR DAVID MATT

You may be able to understand why she will remain un-fucking-locatable for the foreseeable future!

MADAME VICE PRESIDENT

Can you tell us simply what happened here tonight?

DR DAVID MATT

Depends on what you want to believe occurred here.

KENWAY 4 STAR AIRFORCE

What do you want to tell us?

DR DAVID MATT

The truth that President Carlson was a

drug crazed mad man, who conspired to kidnap, murder, dissect and feed the remains of several prominent men he believed where aliens to his alligators.

MADAME VICE PRESIDENT

What evidence do you have to collaborate all this?

DR DAVID MATT

Madame President you can read the names on the labels of the medical samples yourself and some of those brain samples can only come from somebody who is very dead, take it from me as a surgeon. They are all sitting in the incinerator if you want them.

CHAIR OF THE INTELLIGENCE COMITT

What?

DR DAVID MATT

Looks like Dr Blackwell was trying to tidy up before he left, he gathered all the evidence up into a bio-hazard bag and placed it in the incinerator. But he didn't close the door properly.

CHAIR OF THE INTELLIGENCE COMITT

So everything is just sitting there?

DR DAVID MATT

Till someone takes it out or closes the door firmly, then everything will be glass and ash in 30 Seconds.

MADAME VICE PRESIDENT

All the evidence Dr Matt.

DR DAVID MATT

ALL the evidence Madame President.

Silence from all

DR DAVID MATT

Since Blackwell has run off into the night in the middle of an alligator ranch the chances of any bit of him been found

is below zero.

KENWAY 4 STAR AIRFORCE
Are you 100% sure on that.

DR DAVID MATT
I would bet the life of my wife and
daughter on it been 1-0-0-% General.

KENWAY 4 STAR AIRFORCE
I can assure you that no part of the
government was involved in this...

DR DAVID MATT
The simple truth we can all believe is
President Carlson killed himself while
the state of his mind was unbalanced.

DR DAVID MATT
All you have to do is close the
incinerator door. The security teams
have only secured the president's
office, the secret service only searched
the remaining bunker for Dr Blackwell
and anybody else hiding in the place.

MADAME VICE PRESIDENT
What are you saying Dr Matt

DR DAVID MATT
I don't want to be involved in this
matter anymore then you do.

Long silence from everybody.

MADAME VICE PRESIDENT
How could all this have happened.

MONTAGE: EXT ALLIGATOR FARM FEEDING TIME.

President Carlson and guests are watching alligators been feed
nondescript lumps of meat by a robotic arm.

DR DAVID MATT
(VO)
So unless the President Carlson calls
for the security services to come onto
the ranch he has the place all to himself

with total guarantee that he will not be disturbed as he watches people get dissected on the medical table. Then invite a few friends around to his alligator farm to watch the butchered victims been feed to the alligators.

MADAME VICE PRESIDENT
Audible gasp!

Hands reach for the face.

MADAME VICE PRESIDENT
God?

DR DAVID MATT
The ranch has its own alligator farm, 15000 hungry alligators to feed. The president was very fond of his totally robotic alligator farm wasn't he, liked to show off to his guests by feeding his little pets.

General place hand to face and starts to rub his face, as he comes to the realization what he might have saw been feed too the ALLIGATORS for lunch.

GENERAL OF JOINT CHIEFS OF STAFF
Fucking Jesus Christ.

DR DAVID MATT
Let me tell you how it would have happened.

The president would have approached at some White House function with hundreds

INT MAN-CAVE AS DR BLACKWELL ENTERS WITH WHEELCHAIR AND ROBOTIC NURSE.

DR DAVID MATT (V.O.) (CONT'D)

Dr Blackwell would enter and wheel your helpless body away and onto the surgical table. You would always feel the pain as the good doctor cuts into you, with luck your heart would give out with shock before Blackwell cut too deep into your flesh.

EXT DR BLACKWELL IS AT THE ALLIGATOR FARM FOOD SHOOT WITH BODY BAG.

DR DAVID MATT

Then its off to the alligator farm as lunch and the rest of you is ground up and flushed into the swamp as fish food automatically. There is a bio medical incinerator in the medical section that would dispose of anything else left over, clothes, blood samples and organs.

MADAME VICE PRESIDENT

So what's the "truth" as you see it.

DR DAVID MATT

The president shot himself while the balance of his mind was impaired by the pain from his spinal injury and the side effects of the inappropriate drugs prescribed to him by Dr Blackwell. Well known side effects of the drugs include depression, psychosis and combined with the PTSD of his military service tipped the balance of his sanity. The loss of being President was possibly the final ingredient that drove him over the edge

to kill himself. Dr Blackwell knowing his part in the Presidents death ran off into the night never to be seen again.

INT. CLOSED JOINT HOUSE COMMITTEE ROOM.

David is going to be cross examined by a group of congressional
House and Senate members over the death of President Carlson.
The room is a soulless bureaucratic committee room that has no
windows and can only around 20 people.

Whatever is happening in this room is staying within its walls.

CONGRESSMAN #1

Can you please start with why you were
at the Carlson Ranch in the first place?

DR DAVID MATT

Carlson wanted me to operate on his neck and spinal injuries he received 30 years previously injecting from a fighter jet. The medical records and post-mortem findings show the details. I was visiting the ranch to make a final examination before the surgical procedure was carried out.

CONGRESSWOMAN #2

There are no records of your involvement with Ex-President Carlson in regard to these medical matters.

DR DAVID MATT

I have many clients that prefer to keep their medical conditions out of the public limelight, I can provide the names of several members of congress...

CONGRESSWOMAN #2

We have details on these matters, and it would be within the secretive nature of Carlson to keep the full extent of his injuries out of the news casts.

CUT TO:

INT. CLEANERS CUPBOARD.

A man in black type figure is huddled inside a janitor's cupboard with broom, vacuum clearer robots. They have a tablet wired into what looks like cable junction box. CONGRESSWOMAN #2(OFF SCREEN)

How does that work for us nontechnical

DR DAVID MATT(OFF SCREEN)

The pistol has to be programmed with the
users fingerprints to allow safety to be
set to fire.

Pules 68, Respiration 12, Iris diameter, Brain Waves, All remain

CONGRESSWOMAN #2

But you still could have placed your hand
over the Presidents hand and used his
finger to operate the safety and pull the
trigger.

Pulse 68, Respiration 12, Iris diameter, Brain Waves, All remain
constant on Polygraph.

DR DAVID MATT(OFF SCREEN)

Not only does the pistol use
fingerprints to activate the weapon it
also uses nerve impulses to detect the
trigger pull.

Pulse 68, Respiration 12, Iris diameter, Brain Waves, All remain constant on Polygraph.

DR DAVID MATT(OFF SCREEN)
The weapon is designed to prevent accidental discharge by the programmed user and to prevent the weapon been stolen and used by criminals. The President had to pull the trigger of his own free will.

CONGRESSMAN #1
Are you saying that only the President could pull the trigger on the pistol?

Pulse 68, Respiration 12, Iris diameter, Brain Waves, ALL remain constant on Polygraph.

DR DAVID MATT(OFF SCREEN)
Yes, it is what it was designed to do, I own the same exact pistol. I am sure the Secret Service has fully examined the weapon and its user logs....

IRENE DARNELL
Hope it's all over before the twins arrive.

DR DAVID MATT
How long have I been watched, tracked, hunted?

Irene looks up and looks into David's face.

IRENE DARNELL
Since your IQ test at the age of 5 popped up on the computer system. you don't think I was going to have babies with a rock star or leave it to an act of random lust in a motel room.

NIA MATT
Mommy daddy is having bad pictures about you again, but not as bad as that general.

DR DAVID MATT
Who?

IRENE DARNELL
Just someone we bumped into in the corridor.

DR DAVID MATT
Helen?

IRENE DARNELL
Yes she was one of us, Helen really loved you, very much and that's why she married you. We sometime get lucky with the men

we need to reproduce with.

DR DAVID MATT

Men are that easy! A smudge of honey is all that is required. Come into my parlour said the spider to the fly!

IRENE DARNELL

IRENE DARNELL
Next time we negotiate a deal it's going to be in writing, with my layers present.

NIA MATT
Why do you want to keep daddy now, you wanted to lose him before?

IRENE DARNELL
You don't know what you really want till you lose it!

NIA MATT
Daddy never wants to lose me or the twins, I can see his pictures of us together in his head, but not you.

IRENE DARNELL
What pictures of me do you see in daddies head.

NIA MATT
Only the ones of you with no clothes on, the ones you told me not to look at remember and daddy hates losing at chess, daddy doesn't like losing at chess even to me.

DR DAVID MATT
Good to see you again Madame President.

MVP take a circuit board from her jacket pocket; 3 red LEDs are in clear view. The MVP pushed a micro switch, and the LEDs start to flash, turn yellow one by one, more flashing then they all turn GREEN.

MADAME VICE PRESIDENT
A little gift from my friends at the NSA.
We can speak freely for 5 or 6 minutes
before algorithm is defeated.

DR DAVID MATT
Its OK Madame President I understand.

MADAME VICE PRESIDENT
What exactly do you understand?

DR DAVID MATT
I have been a fool my whole life, none
so blind as those that cannot see the
simple truth in front of them.

MADAME VICE PRESIDENT
You noticed the ring, I saw it in your
face, no need for your daughter's

MVP holds up her hands.

MADAME VICE PRESIDENT
We are on the same side David, no threats

MADAME VICE PRESIDENT
We are on the same side and you can't
decipher the files without the keys and
we have them....

DR DAVID MATT
If you say so. Is there another side,
Helen's "accidental" death?

MADAME VICE PRESIDENT
Yes! Just human nature and our abilities
not to accept the simple truth.

DR DAVID MATT
I know, if you want to see aliens look
in the mirror.

MADAME VICE PRESIDENT

There is no evidence to support any of this, a few people have some extra DNA, like yourself, a common occurrence in 750,000 of the population. So intelligent women join the same sorority house and decide to find good husbands, so what...

DR DAVID MATT

I suppose if I star in this evening news casts and told my story...

MADAME VICE PRESIDENT

You would just be another madman spouting his paranoia!

One of the green LEDs starts to flash.

MADAME VICE PRESIDENT

We haven't long.

DR DAVID MATT

So, if I continue to collaborate....

MADAME VICE PRESIDENT

We are not the enemy; we are all just human like you....

The flashing LED turns YELLOW. MVPs sits up straight.

MADAME VICE PRESIDENT

David if you have any problems please just come and see me, Irene has my private number. I am so sorry you got involved in this mess with Carlson's madness.

Another Green LED starts to flash

DR DAVID MATT

It has been a big shock to my system Madame President and you can be assured of my total collaboration with the committee to set the record straight on President Carlson's death.

MADAME VICE PRESIDENT

I won't keep you any longer from your

Irene leaves the group to go to her bedroom.

IRENE DARNELL

Take good care of David and the twins,
I actually do love him.

Clora walks Elizabeth towards a chair across the room, only the back can be seen. A young woman is drugged slumped in the chair.

CLORA MULLER

This is Valeriya I was talking about,
incredibly talented, gifted, and
beautiful.

ELIZABETH HALE/DARNELL

She is perfect.

VALERIYA VARYA

Why are you doing this Clora.

ELIZABETH HALE/DARNELL

We just going to make you a better human
being.

Elizabeth presses a red crystal on Valeria's neck and it burns its way in.

CLORA MULLER

She has no family to speak about and just moved to the city to work as a dancer with us. She is living with me while she looked for her own place. No one is going to miss her and I can easily give a cover story at the theatre.

ELIZABETH HALE/DARNELL

You will not feel this Valeriya and the voice in your head will eventually win, don't struggle it only makes the confusion last longer. You will have the sensation of drowning, best not fight, you will only hurt yourself, pointless in the end.

VALERIYA VARYA

Why are you doing this.....

Valeriya passes out

ELIZABETH HALE/DARNELL

It will take a couple of weeks, but we will hire some private nurses to look after her, David's clinic is the perfect place.

CLORA MULLER

What about David?

ELIZABETH HALE/DARNELL

He will be fine in 24 hours; he will not remember today's excitement. So take as many "samples" as we can now.

CLORA MULLER

I am sure Irene could provide all the samples we need if Nia wasn't too sentimental about David. I will introduce Valeriya to David later, what man will refuse the two of us in the same bed.

When you change your hair you are a double of Irene; you can get David to fuck you any time you want. He hasn't

noticed yet!

ELIZABETH HALE/DARNELL

I look forward to speaking to Valeriya later when she is one of us. I wonder what she will remember to tell us.

CLORA MULLER

You will need to talk to Nia, she is very protective of her daddy.

ELIZABETH HALE/DARNELL

Nia is going to enjoy having all her new sisters to play with and daddy is just helping mommies friends make them for her. She knows all of us anyway, no realm shock to her.

CLORA MULLER

As long as Nia only sees one of us at a time it should be fine, until she is old enough to understand.

Susan can perform all the necessary clinical work at the hospital. We can have 100 surrogate mothers implanted with Irene and David's embryos without raising suspicions. I am sure Susan and Sarah together can persuade David to give them any extra samples they require to keep the baby production line going indefinitely.

Elizabeth holds out the blue crystal in a test tube.

ELIZABETH HALE/DARNELL

We will send David back to meet our makers, I wonder what they will do with him?

IRENE DARNELL

You scratched yourself, don't you remember?

DR DAVID MATT

If you say so.

David is still confused and clearly disorientated, half asleep

IRENE DARNELL

You better stay in bed a bit longer; you need something to wake you up. Clora volunteered, the quickest!

Irene gets up walks toward the bedroom door.

IRENE DARNELL

Going to feed the twins, they must be hungry.

As Irene steps out the door, Clora walks in the door naked.

DISSOLVE TO:

INT. THE KITCHEN: SUNNY MORNING

IRENE DARNELL

Black no sugar?

ELIZABETH HALE/DARNELL

Yes Irene I do take my coffee differently to you, but basically we are all the same in our, looks, tastes, intelligence, attitudes, as you know. Some differences are only human nature.

Sounds of David and other Clora having good sex in the bedroom.

IRENE DARNELL

Same taste in men.

ELIZABETH HALE/DARNELL

Poor David can he keep it up for us all, its my turn next. He can't tell us apart anyway, not even at the apartment or his office. But why do you prefer been on all fours, I find it so degrading, but a girls gotta do what a girls gotta do to have a daughter like Nia.

Irene pulls a plastic test tube from her pocket.

IRENE DARNELL

Not sure about you getting some of David, not sure what relation the children will be to Nia. I took a couple of samples last night. Give this to Susan, she is waiting for it! You didn't want the test tube option?

ELIZABETH HALE/DARNELL

I prefer taking it from the source myself, more fun that way. I am not as cold or calculating as Susan and some of the others. Pity Clora was only 16 when Helen died, sounds like she is receiving some satisfaction this morning.

I definitely want David to be a flesh and blood father to our daughters and not just as medical sample from a sample tube.

If it wasn't for David, Nia would just be like us, a complete cold-hearted BITCH. Nia is the only thing that kept David from leaving you, the father bond with her is stronger than all the garbage we have thrown at him.

IRENE DARNELL

Nia is definitely daddy's little girl, even I can see that. Nothing I do is right and everything daddy does is perfect, makes me sick sometimes!

ELIZABETH HALE/DARNELL

Remember Nia can see inside both our heads, let's hear you explain to her what daddy is doing to all mommy's friends.

IRENE DARNELL

Don't, Nia already makes me feel like a piece of shit for the way I have treated her daddy. I can imagine her playing the little Jiminy Cricket to me.

ELIZABETH HALE/DARNELL

There is hope for our souls yet. Good for Nia, giving us lessons in how to be human.

Sounds of David and Clora making love.

IRENE DARNELL

It's the homework that she gives out that is the hardest part of the lesson and Nia is a hard maker.

ELIZABETH HALE/DARNELL

Time for you to play the outraged mother finding the drunken father fucking the babysitter.

IRENE DARNELL

You need to go before David sees double.
It will be good to make David feel guilty
for once.

ELIZABETH HALE/DARNELL

Nia will help us find our soul and the
twins are daddy's girls already by the
sounds of it.

IRENE DARNELL

Nobody told me being human would be so
difficult.

Synopsis

Life on earth has been manipulated and still is today by some benevolent intelligence.

Every two million years or so the human race gets inseminated by DNA enhancements. This time it is in the form of Elizabeth Hale a twentieth century burlesque dancer. If Doctor David Matt wants to see an alien, he just glances at mirror but firstly he must save his family from a drug crazed mass murdering President who enjoys feeding his victims to his pet alligators.

If you see a picture of a rich powerful man, you always see a beautiful young woman standing by their side! Does it make you wonder, why? The female of a species is also more attractive than the male. Beautiful women get everywhere without question.

Irene Darnell is a woman on a mission to get her man, to find the perfect father for her children, unfortunately for David Matt their daughters can read minds and implant happy memories into his head.

Doctor David Matt is a hunted man, tracked, ever since his IQ results were published on a computer system aged five. He is wanted by a group of fanatical enhanced females to be the father of their children. As in nature the most fearsome hunters are the females, forming a pack or pride, they hunt their prey, usually by ambush. The matriarch selects a victim and drives it slowly into the claws and teeth of the waiting female pack, anticipating the seduction of their victim.

This is the least of David's worries as he is now hunted by the President, a drug filed, homicidal, paranoid mad man on a killing spree who is taking pleasure in showing his victims been feed to alligators in front of an unsuspecting audience. The President is in the hands of a drug pushing, delusional Dr Blackwell who holds a family vendetta against the Darnell's, which David is now attached by Irene Darnell the mother of his children.

Unknown to David he is also the result of alien manipulation and design, together with the entire inhabitants of planet earth. A group of apes just did not decide to climb down from the trees and start to colonize the world, maybe they were giving an extra shot of DNA to hurry them along to climb the evolutionary ladder. Now we are getting another push up the ladder to the next stage

of our evolution! If we share 99% of our DNA with chimpanzees, looking at what we are for that additional genetic material, would be the result if we a given an EXTRA ONE PERCENT?

The matriarchs/Alpha female are Elizabeth a 20th century burlesque dancer and her great granddaughter Irene, identical in all appearances and attitudes. Irene's intelligence is her ammunition, her body is an assault rifle and together they make a lethal weapon for a hunter. The office is a perfect hunting ground, camouflage, concealment, opportunity, and her pray come to her. It is not always true that predators go for the weak, sometimes they prefer a challenge of going for the Alpha male. Irene's view on inadequate members of the male of the species would make a female praying mantis consider becoming vegan. Elizabeth and Irene could be identical twins or more likely clones, Elizabeth looks 30 instead of her 180-year age as laid out in the story line.

The human race is under the miss-comprehension that life evolved on earth, some do suspect the earth was seeded from out of space, few of those understand the mechanism of how this is done. The dinosaurs where phenomenally successful but they couldn't prevent the large asteroid destroying their tenure of the planet earth.

Some intelligent presence is sending out DNA aimed at possible future worlds that could support life in our form. Every two million years new codes are sent to update the last. Spaceships the size of grains of rice are blasted into space. The smaller the space craft the less energy to propel the tiny spacecraft to near light speed. Just as we can see planets around distant stars that can possibly support humanoid life, so can this great intelligence. Why they desire their DNA to seed other worlds we may never know.

The reason, ideas, philosophy behind an alien intelligence spitting out its seed into the universe are unknown. But they are persistent and observe their progeny sending them little tests in the shape of large asteroids crashing down onto the planet's inhabitants.

The tiny rice sized spaceships are the perfect way to transport life across the universe. A virus encased within the lattice of a crystal will remain dormant, preserved, timeless as the star themselves until implanted in a suitable cell to reproduce. A virus has no means to copy itself so if it invades a suitable hoist and hijacks all the cells to copy itself and take over the hoist. Encoded in the DNA are memories/instructions of the individual donor to be unpacked once the DNA virus has been

activated in its hoist.

Only the President and a few individuals believes the rantings of Dr William Blackwell that the earth is been invaded by a supper race of humans. Unfortunately, they assume the alien invaders are taking the forms of rich powerful men and not considering the daughter, wives and girlfriends. No consideration given to the female of the species is more dangerous to the male!

Dr Blackwell not only feeds President Carlson's ego, but also his drug addiction to gain almost complete control over the most powerful man on earth. Blackwell had a great grandfather die on the Darnell yacht in the 1930s and he believed it was an alien conspiracy. It was his paranoia that pointed the finger at all the rich and powerful men been the alien invaders.

David's essence, his DNA, memories have been encoded into a tiny space craft and fired into space, he may meet his makers in 167000 years!

There are definitely various forces at play in the story line and room for them to be expanded. The treatment of David and the young dancer Valeriya who is drugged and then enhanced with addition DNA killing her identity and personality. Irene and Elizabeth are not the harmless individuals they make themselves out to be.
