

# JON GLENDENING

FILM DIRECTOR  
SCREENWRITER  
PRODUCER  
AUTHOR  
EDITOR

I am a Zambian born, British filmmaker. I've directed four feature films, award-winning short films, sold eight screenplays & produced, directed & edited countless branded & broadcast content.

I've been making movies since I was eleven and have worked in the profession since I was seventeen. I worked my way up the hierarchy from runner to assistant director to becoming Robert De Niro's character research assistant on *Frankenstein* and Sir Nicholas Hytner's assistant on *The Madness of King George*.

History is my passion. I've edited broadcast WWII documentaries and my first non-fiction book will be published in 2022 by Unicorn books.
