

Bruce Abels | Voice Actor **Deep, “Smooth Gravel” Voice-over**

Bruce began his voice-over career in 2010, and trains with some of the industry’s most prominent coaches.

With a deep, textured voice, colored by distinctive overtones, he is quite versatile: from laid-back to high energy. Sarcastic to cinematic. Scary to sexy. Tough guy to guy next door to voice of god. For commercials, narrations, documentaries, promos, politicals, and more. He works from a broadcast-quality, pro home studio equipped with Source-Connect.

Plus, with 30 years and counting on the other side of the glass as an award-winning advertising copywriter/producer who’s created hundreds of TV/radio spots, Bruce is a VO uniquely attuned to what directors/producers/clients want—from interpreting scripts to taking direction.
