

THE Instructor/Coach

Bonnie Pettiford

Originally from Richmond, Virginia, I've always had a deep ardor for "the arts" and a heartfelt passion for acting! I've had an array of acting training and several stage/film acting, talent coordinating, casting & production credits. After graduating from Old Dominion's Communications & Theater Arts program, I found casting at the Virginia Beach Studio Center Total Production! Furthering my education, I attended and graduated from Regent University's Film & Television graduate program. Along my casting journey, I've worked with several well-known independent media, marketing and production companies. From theater and music videos, to commercials and independent films; I've acted in various productions and helped connect media teams to their dream talent! Upon sharpening my casting expertise and getting certified as an Art Therapy Life Coach, my undying connection for the mindset of the talent lead me to sharing my knowledge of acting, production and my own life's journey to coach and inspire awareness and confidence in others!
