

YACYNN

MUSIC COMPOSER

PROFILE

Music composer, multi-instrumentalist, blending various textures and colors to create immersive, original compositions. Skilled in orchestration and sound design, with a versatile approach across genres, from classical to modern styles. Passionate about storytelling through sound, bringing a unique musical dimension to each project.

FUNDAMENTAL MUSICAL SKILLS

- Advanced music theory (harmony, counterpoint, chord progressions).
- Programming complex MIDI sequences for realistic pre-recordings.
- Orchestration and understanding of instruments' ranges and interactions.
- Creating memorable themes and motifs.
- Versatility in composing various styles.
- Proficiency in DAWs (Logic Pro X).
- Using instrument libraries (Spitfire, Native Instruments, etc.) for realistic mockups.
- Sound design, especially for sci-fi and horror.

Discography & Creative Experience

- Work as audio engineering and Author of the book "Sound Elements," an accessible guide to sound design and music production, breaking down essential tools such as EQ, Compression, and Reverb.
- Created structured content to help beginner producers understand and master the basics of mixing;

Composer - "Life in 2D" Album

2030 - PRESENT

2024-

- Composed a fully instrumental album structured as a series of ten episodes, titled "Life in 2D" telling the story of a psychic journey through electronic and orchestral sounds. Utilized a diverse sound palette to express a concept of mental and emotional travel through music.

Composer - A present from a distant future

2023-

- Released the conceptual album "A Present from a Distant Future" a two-hour fully instrumental project telling a futuristic story by combining progressive music with integrated robotic voices to enhance the deep messages of the concept.

Awards & Distinctions

2017-

- Winner of the National Improvisation Contest organized by the French Embassy, judged by Jean-François Zygel. This led to a masterclass at the Paris Conservatory, a performance with Zygel
