@LordRicoVA

Greetings! My name is Rico, and I am a nonbinary scriptwriter and voice actor based in the PNW with plans to move to the UK later this year. I've had four years of scriptwriting experience specializing in visual novels, short films, and feature film development. As writer, my specialized genres are horror, psychological, romance, fantasy and biographical while endeavoring to tell authentic queer stories that aren't based entirely in trauma. Rather, I want to tell queer joy stories and show that we can exist in any genre without resorting to harmful cliches.
