## About

Interdisciplinary artist and behavioral specialist merging fine arts, generative AI, and psychology to create visually immersive, concept-driven work. My practice explores human behavior, emotion, and pattern through a psychedelic, symbolic, and minimalist visual language.

## Experience

**Owner & Creative Director** — Achars Kosmos (2021–Present)

Founded and lead an independent art studio focused on concept-driven art and AI-enhanced design. Develop cohesive visual identity and portfolio.

**Freelance Artist & Digital Creator** (2021–Present)

Produce custom artwork blending traditional and digital methods, incorporating generative AI to expand creative boundaries.

**Behavioral Specialist** — Advanced Behavioral Consultation (2023–Present)

Apply behavioral science and data-driven strategies to analyze patterns, support individuals, and translate complex human behavior into actionable insight

## Education

**University of Rhode Island** (2022-2023)- Bachelor of Arts- Psychology

Minor- Communications & Writing

Summa Cum Laude

**Community College of Rhode Island** (2020-2022)- General Studies- Fine Arts

---

Dear Hiring Manager,

I am an interdisciplinary artist and behavioral specialist working at the intersection of fine arts, psychology, and generative AI—where creativity is not just expression, but exploration. My work is driven by contrast: structure and chaos, logic and emotion, data and intuition. I don't just create visuals—I translate human behavior, perception, and pattern into immersive, high-impact experiences.

Through my studio, Achars Kosmos, I've built a body of work that merges psychedelic intensity with intentional design. Each piece is layered—visually and conceptually—pulling from behavioral analysis, symbolic thinking, and emerging AI tools to create art that is both striking and psychologically resonant. My background in psychology allows me to approach creative work with precision: identifying patterns, understanding emotional triggers, and designing with purpose.

Professionally, I bring a dual lens—analytical and artistic. As a Behavioral Specialist, I work deeply with human behavior, interpreting complex patterns and translating them into actionable insight. As an artist, I take that same depth and transform it into visual narratives that are bold, dynamic, and memorable.

I am drawn to environments that value originality, intensity, and forward-thinking creativity—spaces where ideas are pushed, not polished down. I bring a willingness to experiment, a strong conceptual voice, and the ability to execute across both traditional and AI-driven mediums.

Thank you for your time and consideration. I would welcome the opportunity to contribute a perspective that is both visually powerful and intellectually grounded.

Sincerely,

Alicia Charette
