SUMMARY

Every frame tells a story—and the best visual effects are the ones audiences never notice.

I'm a dedicated VFX Artist specializing in compositing, rotoscoping, tracking, cleanup, and seamless integration of visual effects. From removing unwanted elements and replacing backgrounds to delivering precise roto work and motion tracking, I help filmmakers, agencies, and content creators transform challenging footage into polished, production-ready visuals.

I combine technical precision with a strong eye for detail to ensure every shot blends naturally and supports the creative vision behind it.
